discussion of all principles of personal data processing obligations of data controllers and rights of data subjects This is the core of the personal data protection regime GDPR is applicable directly in all Member States providing for a unification of data protection rules within the EU However it poses a problem in enabling international trade and data transfers outside the EU between economies which have different data protection models in place Among the broad spectrum of aspects of the subject covered are the following summary of the changes introduced by the GDPR new territorial scope key principles of personal data processing legal bases for the processing of personal data marketing cookies and profiling new information clauses new Subject Access Requests SARs including the right to be forgotten on the Internet the right to data portability and the right to object to profiling new data protection by design and by default benefits from implementing a data protection certificate and data transfers outside the EU including BCRs SCCs and special features of EU US arrangements This book references many rulings of European courts as well as interpretations and guidelines formulated by European data protection authorities examples and best practices making it of great practical value to lawyers and business leaders Because of the increase in legal certainty in this area guaranteed by the GDPR multinational corporations and their customers and contractors will benefit enormously from consulting and using this book For practitioners and academics researching or advising clients on this area and government policy advisors this book provides an indispensable source of guidance and information for many years to come

What Marketers Must Know about GDPR Michael Carney, 2018-03-19 If you market to the UK and the European Union or have clients anywhere in Great Britain or Europe no matter where your own business is based you absolutely must get yourself up to speed with the new GDPR General Data Protection Regulation which comes into effect on May 25 2018 If you don't you are potentially liable for fines of up to e20 million or 4% of your global turnover What is GDPR Let's cut to the chase What exactly is GDPR and why should marketers care Steven MacDonald gives us a helpful explanation The General Data Protection Regulation GDPR is a new digital privacy regulation being introduced on the 25th May 2018 It standardizes a wide range of different privacy legislations across the EU into one central set of regulations that will protect users in all member states Put simply this means companies will now be required to build in privacy settings into their digital products and websites and have them switched on by default Companies also need to regularly conduct privacy impact assessments strengthen the way they seek permission to use the data document the ways they use personal data and improve the way they communicate data breaches And because it's a regulation and not a directive it is legally binding meaning it cannot be opted out of or ignored In fact failing to comply could lead to fines of up to e20 million or 4% of your global turnover What Marketers Must Know About GDPR is an essential guide to the European Union's new General Data Protection Regulation It's been written and compiled by highly experienced marketer MICHAEL CARNEY

New European General Data Protection Regulation Daniel Rücker, Tobias Kugler, 2018 The European Data Protection Basic Regulation brings a uniform data protection law directly applicable in all European Member States which

will also have to be complied with by numerous companies outside the EU with business in the EU. The existing national data protection laws are thus largely replaced. Companies have to adapt their business models and processes to the new requirements within a period of two years. This book is the ideal basis for legal advisors and all internationally affected companies to review existing business processes and to shape new processes and business models in accordance with data privacy.

Data Protection Around the World Elif Kiesow Cortez, 2020-11-20. This book provides a snapshot of privacy laws and practices from a varied set of jurisdictions in order to offer guidance on national and international contemporary issues regarding the processing of personal data and serves as an up to date resource on the applications and practice relevant examples of data protection laws in different countries. Privacy violations emerging at an ever increasing rate due to evolving technology and new lifestyles linked to an intensified online presence of ever more individuals required the design of a novel data protection and privacy regulation. The EU General Data Protection Regulation (GDPR) stands as an example of a regulatory response to these demands. The authors included in this book offer an in depth analysis of the national data protection legislation of various countries across different continents not only including country specific details but also comparing the idiosyncratic characteristics of these national privacy laws to the GDPR. Valuable comparative information on data protection regulations around the world is thus provided in one concise volume. Due to the variety of jurisdictions covered and the practical examples focused on both academics and legal practitioners will find this book especially useful while for compliance practitioners it can serve as a guide regarding transnational data transfers.

Elif Kiesow Cortez is Senior Lecturer at the International and European Law Program at The Hague University of Applied Sciences in The Netherlands.
