## AT91RM9200 Microcontroller Schematic Check List

### 1. Introduction

This application note is a schematic review check list for systems embedding the Atmel® ARM® Thumb®-based AT91RM9200 microcontroller.

It gives requirements concerning the different pin connections that must be considered before starting any new board design and describes the minimum hardware resources required to quickly develop an application with the AT91RM9200. This document does not consider PCB layout constraints.

This application note is not intended to be exhaustive. Its objective is to cover as many configurations of use as possible.

The Check List table has a column reserved for reviewing designers to verify the line item has been checked.
