

CALCULUS 2

INTEGRAL & DIFFERENTIAL CALCULUS FOR ADVANCED STUDENTS

INTEGRATION

DEFINITIONS

Integration. The definite integral expresses the idea of adding the values of a function over a continuous interval.

Riemann sum. A regular Riemann sum of a function f defined on $[a, b]$ is approximated by a partition, which is a finite division of $[a, b]$ into subintervals, typically expressed by endpoints $x_0, x_1, x_2, \dots, x_n$ and a sampling of points, one point from each subinterval, say c_i from $[x_{i-1}, x_i]$. The associated Riemann sum is $\sum_{i=1}^n f(c_i)(x_i - x_{i-1})$.

A **regular partition** has subintervals all the same length, $x_i - x_{i-1} = \Delta x$, $x_i = a + i\Delta x$. A partition's error is the maximum subinterval length. A left Riemann sum uses the left endpoint $c_i = x_{i-1}$ of each subinterval, a right sum, the right endpoint, an upper sum (or) a maximum value $f(x_i)$ at point c_i of each subinterval where the maximum value of f is achieved, a lower sum, the minimum value. E.g., the upper Riemann sum of $\cos x$ on $[\pi/2, \pi]$ with a regular partition of n intervals is the left sum where the cosine is decreasing on the interval: $\sum_{i=1}^n [\cos(x_{i-1}) - \cos(x_i)] = 1 - \cos(\pi) = 2$.

Definite Integral. The definite integral of f from a to b may be denoted as $\int_a^b f(x) dx$ or $\int_a^b f(x)$. The latter is used to mean the value of some number A to be called the integral value for the following: every continuous f such that all Riemann sums on partitions of $[a, b]$ with norm less than δ differ from A by less than ϵ . It then is such a value A , the function is said to be integrable and the value is denoted $\int_a^b f(x) dx$ or $\int_a^b f(x)$. The function must be bounded on the integrable. The function f is called the integrand and the points a and b are called the lower limit and upper limit of integration, respectively. The most integral value is the function of f from f and $[a, b]$ as well as to the resulting value of A from f and $[a, b]$.

Substitution. An antiderivative of a function f is a function F whose derivative is f . A constant for all x in some domain results an interval. Any two antiderivatives of a function on an interval differ by a constant in consequence of the Mean Value Theorem. E.g., both $\frac{1}{2}x^2 + 1$ and $\frac{1}{2}x^2 - 1$ are antiderivatives of x , differing by $\frac{1}{2}$. The indefinite integral of a function f , denoted $\int f(x) dx$, is an expression for the family of antiderivatives on a general (often unspecified) interval. E.g., for $f(x) = x - 2$, or for $x > 0$, $\int x dx = \frac{1}{2}x^2 + C$.

The constant C , which may have any real value, is the constant of integration. Computer programs, and this effect, may omit the constant, it being understood by the user. It is important to note that the given antiderivative is just one representative of a class.

INTERPRETATIONS

Area under a curve. If f is nonnegative and continuous on $[a, b]$, then $\int_a^b f(x) dx$ gives the area between the curve and the graph. The area function $A(x) = \int_a^x f(t) dt$ gives the area accumulated up to x . If f is negative, the integral is the negative of the area.

Average value. The average value of f over an interval $[a, b]$ may be denoted by average value $= \frac{1}{b-a} \int_a^b f(x) dx$.

A rough estimate of an integral may be made by estimating the average value, the bounding the graph and multiplying it by the length of the interval. This idea is the Mean Value Theorem for integrals, as the theory explains.

Continental change. The integral of a rate of change of a quantity over a time interval gives the total change in the quantity over the time interval. E.g., if velocity is a velocity (the rate of change of position), then $\int_a^b v(t) dt$ is the approximate displacement resulting in the time interval $[a, b]$, adding the displacement, the distance traveled given the approximate change in position over the entire time interval. In the limit of small time increments, one gets the exact total displacement: $\int_a^b v(t) dt = x(b) - x(a)$.

Integral curve. Imagine that a function f describes a slope field for each x . Plotting line segments with slope $f(x)$ at points (x, y) for various y and doing this for various x , one gets a slope field. An antiderivative of f is a function whose graph is tangent to the slope field at each point. The graph of the antiderivative is called an integral curve of the slope field.

Initial value problem. The solution to the differential equation $y' = f(x)$ with initial value $y(a) = y_0$ is $y(x)$ such $\int_a^x f(t) dt = y(x) - y_0$.

THEORY

Integration & Integration. A continuous function on a closed interval is integrable. Integrability on $[a, b]$ implies integrability on closed subintervals of $[a, b]$. Assuming f is integrable on $[a, b]$ and $[c, d]$ then $\int_a^b f(x) dx = \int_a^c f(x) dx + \int_c^b f(x) dx$. Use this to check integral evaluations with rough estimates of subintervals.

Basic Integral Bounds

If f is nonnegative, then $\int_a^b f(x) dx$ is nonnegative. If f is integrable on $[a, b]$, then so is $|f|$ and $|\int_a^b f(x) dx| \leq \int_a^b |f(x)| dx$.

Fundamental theorem of calculus. One part of the theorem is used to evaluate integrals. If f is continuous on $[a, b]$ and F is an antiderivative of f on that interval, then $\int_a^b f(x) dx = F(b) - F(a)$. The other part of the theorem states that if f is continuous on $[a, b]$, then $\int_a^b f(x) dx = F(b) - F(a)$.

A function F is called an antiderivative of f on $[a, b]$ if $F'(x) = f(x)$ for all x in $[a, b]$. The area function $A(x) = \int_a^x f(t) dt$ is an antiderivative of f on the interval $[a, b]$.

Fundamental Theorem

Antiderivatives of integrals. Functions are often defined as integrals. E.g., the "area integral function" is $A(x) = \int_a^x f(t) dt$. To differentiate such, use the second part of the Fundamental theorem.

Composition. A function such as $\int_a^x f(t) dt$ is a composition involving $A(x) = \int_a^x f(t) dt$. To differentiate, use the chain rule and the fundamental theorem: $\frac{d}{dx} \int_a^x f(t) dt = f(x)$. E.g., $\frac{d}{dx} \int_a^x (x^2 + 1) dx = \frac{d}{dx} (\frac{1}{3}x^3 + x) = x^2 + 1$.

Mean value theorem for integrals. If f and g are continuous on $[a, b]$, then there is a c in $[a, b]$ such that $\int_a^b f(x) g(x) dx = f(c) \int_a^b g(x) dx$. In the case $g(x) = 1$, the average value of f is attained somewhere on the interval: $\frac{1}{b-a} \int_a^b f(x) dx = f(c)$.

MVT for Integrals

Change of variable theorem. An integral and limits of integration can be changed to make an integral easier to approach or evaluate. In effect, the "area" is essentially redistributed without changing the integral value. If f is a function with continuous derivatives and f' is continuous, then $\int_a^b f(g(x)) g'(x) dx = \int_c^d f(u) du$, where u and x are points with $g(a) = c$ and $g(b) = d$. In practice, substitutions are applied, integrals are changed, and the result is then converted back. E.g., $\int_0^1 x \sqrt{1-x^2} dx = \int_1^0 \frac{1}{2} u^{-1/2} du = \int_1^0 u^{-1/2} du = -2u^{1/2} \Big|_1^0 = -2(0 - 1) = 2$. The formula is often used backwards, starting with $\int_a^b f(x) dx = \int_c^d f(g(x)) g'(x) dx$ on page 2.

Variable Substitution. A rigorous definition is that $\int_a^b f(x) dx = \int_c^d f(g(x)) g'(x) dx$. The change of variable formula with $u = g(x)$ yields $\int_a^b f(x) dx = \int_c^d f(u) du = \int_c^d f(u) du$, showing that $\int_a^b f(x) dx = \int_c^d f(u) du$. The other elementary properties of the integral may now be derived for each desired. From this definition, in this approach, no inverse function is defined and is defined to be the second derivative of $f(x)$.

Calculus 2 Quickstudy Academic

IM Harris

Calculus 2 Quickstudy Academic:

Right here, we have countless ebook **Calculus 2 Quickstudy Academic** and collections to check out. We additionally have enough money variant types and as a consequence type of the books to browse. The welcome book, fiction, history, novel, scientific research, as competently as various new sorts of books are readily easy to get to here.

As this Calculus 2 Quickstudy Academic, it ends up creature one of the favored book Calculus 2 Quickstudy Academic collections that we have. This is why you remain in the best website to see the amazing ebook to have.

Calculus 2 Quickstudy Academic Introduction

In the digital age, access to information has become easier than ever before. The ability to download Calculus 2 Quickstudy Academic has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Calculus 2 Quickstudy Academic has opened up a world of possibilities. Downloading Calculus 2 Quickstudy Academic provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Calculus 2 Quickstudy Academic has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Calculus 2 Quickstudy Academic. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Calculus 2 Quickstudy Academic. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Calculus 2 Quickstudy Academic, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Calculus 2 Quickstudy Academic has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers.

worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Calculus 2 Quickstudy Academic Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Calculus 2 Quickstudy Academic is one of the best book in our library for free trial. We provide copy of Calculus 2 Quickstudy Academic in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Calculus 2 Quickstudy Academic. Where to download Calculus 2 Quickstudy Academic online for free? Are you looking for Calculus 2 Quickstudy Academic PDF? This is definitely going to save you time and cash in something you should think about.
