3 Fundamentals Face Recognition Techniques

Ian Pickup

3 Fundamentals Face Recognition Techniques:

Fundamentals of Verbal and Nonverbal Communication and the Biometric Issue A. Esposito, M. Bratanić, E. Keller, 2007-05-22 Discusses the fundamental features of verbal and nonverbal communication This book states that the problem of understanding human behaviour in terms of personal traits and the possibility of an algorithmic implementation that exploits personal traits to identify a person unambiguously are among the challenges of modern science and technology

Regulating Artificial Intelligence in Industry Damian M. Bielicki, 2021-12-23 Artificial Intelligence AI has augmented human activities and unlocked opportunities for many sectors of the economy It is used for data management and analysis decision making and many other aspects As with most rapidly advancing technologies law is often playing a catch up role so the study of how law interacts with AI is more critical now than ever before This book provides a detailed qualitative exploration into regulatory aspects of AI in industry Offering a unique focus on current practice and existing trends in a wide range of industries where AI plays an increasingly important role the work contains legal and technical analysis performed by 15 researchers and practitioners from different institutions around the world to provide an overview of how AI is being used and regulated across a wide range of sectors including aviation energy government healthcare legal maritime military music and others It addresses the broad range of aspects including privacy liability transparency justice and others from the perspective of different jurisdictions Including a discussion of the role of AI in industry during the Covid 19 pandemic the chapters also offer a set of recommendations for optimal regulatory interventions Therefore this book will be of interest to academics students and practitioners interested in technological and regulatory aspects of AI

Image and Video Technology Thomas Bräunl, Brendan McCane, Mariano Rivera, Xinguo Yu, 2016-02-03 This book constitutes the thoroughly refereed post conference proceedings of the 7th Pacific Rim Symposium on Image and Video Technology PSIVT 2015 held in Auckland New Zealand in November 2015 The total of 61 revised papers was carefully reviewed and selected from 133 submissions The papers are organized in topical sections on color and motion image video coding and transmission computational photography and arts computer vision and applications image segmentation and classification video surveillance biomedical image processing and analysis object and pattern recognition computer vision and pattern recognition image video processing and analysis and pattern recognition

Artificial Intelligence, Governance and Sustainable Development Imad Antoine Ibrahim, Jon Truby, Paolo Davide Farah, 2026-02-05 Considering the power and potential of AI and digital technologies very few studies have systematically analysed their potential for realizing SDG16 despite the role they are expected to play in realizing the 2030 agenda Exploring the problematic nature of artificial intelligence this book explores the significant advantages AI offers for successfully implementing Sustainable Development Goal 16 and the potential to track progress and impact through machine learning Focusing on governance the book explores the potential of AI to meet the SDGs within the categories of the rule of law criminal justice and ethics and access to justice

Highlighting that the SDGs are a problematic human rights frame and have been critiqued as ignoring some major global disconnects when it comes to areas such as trade the book explores the potential for the application of AI to the achievement of the SDGs to be equally problematic and considers issues of techno colonialism information deficits and fundamental technological dependencies which could be exacerbated when AI meets the SDGs Offering an analysis of the role of AI and governance in securing peace development and security this book will be of interest to students and academics with an interest in international law political science and development

Advances in Computer Vision and Information Technology, 2013-12-30 The latest trends in information technology represent a new intellectual paradigm for scientific exploration and the visualization of scientific phenomena This title covers the emerging technologies in the field Academics engineers industrialists scientists and researchers engaged in teaching and research and development of computer science and information technology will find the book useful for their academic and research work

Security in Computing and Communications Sabu M. Thampi, Gregorio Martinez Perez, Ryan Ko, Danda B. Rawat, 2020-04-25 This book constitutes the refereed proceedings of the 7th International Symposium on Security in Computing and Communications SSCC 2019 held in Trivandrum India in December 2019 The 22 revised full papers and 7 revised short papers presented were carefully reviewed and selected from 61 submissions The papers cover wide research fields including cryptography database and storage security human and societal aspects of security and privacy

Applications of Artificial Intelligence in 5G and Internet of Things Vinod M. Kapse, Lalit Garg, Pavan Kumar Shukla, Varadraj Gurupur, Amit Krishna Dwivedi, 2025-04-30 This is the proceedings of the 1st International Conference on Applications of AI in 5G and IoT ICAAI5GI2024 It brings together ground breaking research and practical insights into integrating Artificial Intelligence within 5G and the Internet of Things IoT This compilation highlights the latest advancements and innovative solutions emerging at the intersection of AI 5G and IoT technologies It also delves into a wide array of topics including the role of AI in enhancing 5G network efficiency the development of intelligent IoT devices and the creation of smart environments powered by these cutting edge technologies It further showcases key findings on AI driven applications in 5G for seamless communication improved connectivity and advanced data processing techniques along with IoT solutions for smart cities industrial automation healthcare and beyond It would be a valuable read for researchers engineers and professionals in AI 5G IoT and related fields It serves as an essential resource for those seeking to stay at the forefront of technological advancements in these rapidly evolving domains
