Principles of General Organic Chemistry E. Hjelt, 2015-06-25

Excerpt from Principles of General Organic Chemistry With regard to the object of this work there is little to add to Professor Hjelt s remarks it is

intended for those students who have already some general elementary knowledge of organic chemistry and who wish to

extend and systematise that knowledge In Part I the composition constitution and classification of organic compounds are

discussed and explained as clearly and concisely as possible Part II is devoted to illustrating the connection between the

constitution of organic compounds and their chief physical properties Part III deals with the chemical behaviour of organic

compounds The reactions described in this section are in all cases arranged according to the results dehydration processes

for instance being all classed together Although such a division is somewhat novel experience has shown that it materially

assists students in obtaining a wide and thorough grasp of the subject About the Publisher Forgotten Books publishes
