Ditch the overwhelm. Embrace minimalism. Plan with intention. With 90 Days of Intention, your journey to success has never been simpler.

*Momentum Planner* Sophia Carlson, AI, 2025-03-04 Momentum Planner presents a novel approach to time management focusing on building sustained motivation and consistent action rather than just scheduling events. It introduces a calendar system designed to fuel ambition, emphasizing strategic planning, consistent action, and feedback loops. The book argues that typical calendars often fail because they don't foster the daily habits needed for progress. Did you know that people are more likely to achieve their goals when they break them into smaller, manageable tasks? Or that regular reviews and adjustments can significantly improve alignment with long-term objectives? The book guides readers through creating a personalized momentum-building calendar. Chapters explore goal setting methodologies like SMART goals and OKRs, habit formation techniques, and progress tracking strategies. By integrating these elements, the book aims to create a cohesive planning system that aligns with individual needs and aspirations. What sets this book apart is its focus on building momentum, moving beyond simple scheduling to create a dynamic system that adapts to evolving needs and keeps users motivated. The Momentum Planner draws upon research in behavioral psychology and management science to support its arguments. It begins with core concepts and systematically builds toward a comprehensive planning system, incorporating practical applications and actionable exercises to empower readers to take control of their time and achieve their goals. Ultimately, the book provides a practical framework to build momentum toward long-term success.

have a good understanding of what is involved in the care of people with serious or advanced illnesses and their families. However, the science of palliative care is advancing and this new edition will contribute to a better understanding. This new edition offers 86 updated or new chapters out of 108 written by experts in their given fields providing up-to-date information on a wide range of topics of relevance to those providing care towards the end of life, no matter what the disease may be. We present a global perspective on contemporary and classic issues in palliative care with authors from a wide range of disciplines involved in this essential aspect of care. The Textbook includes sections addressing aspects such as symptom management and care provision, organization of care in different settings, care in specific disease groups, palliative care emergencies, ethics, public health approaches and research in palliative care. This new Textbook will be of value to practitioners in all disciplines and professions where the care of people approaching death is important, specialists as well as non-specialists in any setting where people with serious advanced illnesses are residing. It is also an important resource for researchers, policy and decision makers at national or regional levels. Neither the science nor the art of palliative care will stand still, so the Editors and contributors from all over the world aim to keep this Textbook updated so that the reader can find new evidence and approaches to care.
