the regions of South Asia have remained relatively unexplored Theorizing the Local provides a challenging and compelling

counterperspective to the globalized arguing for the value of comparative microstudies that are not concerned primarily with

the flow of capital and neoliberal politics What does it mean for musical activities to be local in an increasingly

interconnected world To what extent can theoretical activity be localized to the very acts of making music interacting and

before been presented in a single volume The authors cross the traditional borders of scholarship and region exploring in

unmatched detail a vast array of musical practices and significant ethnographic discoveries from Nepal to India India to Sri

important study of South Asian musical traditions that offers a broader understanding of 21st century music of the world
