Truett, 1998 Designed for a one semester course at the undergraduate or MBA level in managerial economics this text also works well as a text reference for a second course emphasizing cases Managerial Economics takes a traditional neo classical approach to managerial economics It is a proven book with a reputation for concise and clear writing correct presentation of economics and outstanding end of chapter problems and cases Its tried and true problem solving approach helps students see how managers can use economic analysis to solve business problems and make better decisions **Managerial Economics and Organizational**

Architecture James A. Brickley, Clifford W. Smith, Jerold L. Zimmerman, 2004 This approach to managerial economics takes models from recent economic research and applies them to the internal structure of the firm After teaching basic applied economics the authors look inside the firm and apply this analysis to management decision making The general model used for this application is organizational architecture which consists of three aspects of corporate organization the assignment of decision rights within the company methods of rewarding individuals and the structure of systems to evaluate the performance of both individuals and business units These three elements must balance in an organization Managerial Economics S. Charles Maurice, Christopher R. Thomas, 1999 **Managerial Economics** Paul G. Keat, Philip K. Y.

Young, 1996 This book presents readers with a unique and distinctive case study running throughout each chapter focusing on the decision making processes of a hypothetical company The dynamic business setting that is the hypothetical Global Foods provides an interesting backdrop for the discussion of microeconomic theory and the tools of quantitative analysis used in management decision making Also covered by the authors are topics such as supply and demand forecasting cost special pricing practices and the role of the government in the market economy For small business owners or large company management players who want to relate economic concepts principles and theories to their everyday business activity

Managerial Economics & Organizational Architecture James A. Brickley, Clifford Smith, Jerold L. Zimmerman, 2007 With two distinct objectives this text's approach to managerial economics takes models from recent economics research and applies the research to the internal structure of a firm After teaching basic applied economics the authors look inside the firm and apply this analysis to management decision making Authors Brickley Smith and Zimmerman contend that organizational architecture consists of three aspects of corporate organization the assignment of decision rights within the company methods of rewarding individuals the structure of systems to evaluate the performance of both individuals and business units These three components can be likened to a stool with three legs If one of the legs is shorter the stool is out of balance These three elements must be in balance in the organization as well *Im Fund of Mgrl Economics*
