**Summary of Stephen R. Prothero's God Is Not One** Everest Media, 2022-03-21T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 Islam is often seen as a religion of terror and for many Europeans and North Americans that is all they know about it But Islam is much more than that and it should be seen as such 2 Islam is the path of submission and Muslims are submitters who seek peace in this life and the next by surrendering themselves to the one true God They do this first and foremost by prostrating themselves in prayer 3 Muslims have heeded the call to prayer going out from mosques and minarets for more than a millennium This invitation the adhan is usually done in Arabic because according to Muslims it was in Arabic that God delivered his final revelation the Quran to his final prophet Muhammad 4 Islam is the second largest religion in the world and it is followed by over one billion people roughly one fifth of the world's population Islam is typically classified as a Western

religion but it predominates in Asian countries such as Indonesia India and Pakistan

**Why Philosophy Matters for the Study of Religion—and Vice Versa** Thomas A. Lewis, 2015-12-18 Work in philosophy of religion is still strongly marked by an excessive focus on Christianity and to a lesser extent Judaism almost to the exclusion of other religious traditions Moreover in many cases it has been confined to a narrow set of intellectual problems without embedding these in their larger social historical and practical contexts Why Philosophy Matters for the Study of Religion and Vice Versa addresses this situation through a series of interventions intended to work against the gap that exists between much scholarship in philosophy of religion and important recent developments that speak to religious studies as a whole This volume takes up what in recent years has often been seen as a fundamental reason for excluding religious ethics and philosophy of religion from religious studies their explicit normativity Against this presupposition Thomas A Lewis argues that normativity is pervasive not unique to ethics and philosophy of religion and therefore not a reason to exclude them from religious studies Lewis bridges more philosophical and historical subfields by arguing for the importance of history to the philosophy of religion He considers the future of religious ethics explaining that the field as whole should learn from the methodological developments associated with recent work in comparative religious ethics and comparative religious ethics should no longer be conceived as a distinct subfield The concluding chapter engages broader post 9 11 arguments about the importance of studying religion arguing that prominent contemporary notions of religious literacy actually hinder our ability to grasp religion s significance and impact in the world today

*Evidence for the Crucifixion and Resurrection of Jesus Christ Examined through Islamic Law* Suheil Madanat, 2023-08-31 For almost 1 400 years Christians have wrestled with appropriate ways to defend their claims to truth in the context of Islam Dr Suheil Madanat proposes that the answer lies neither in the antagonization of polemics nor apologetic arguments rooted in Western legal systems but instead in utilizing the authority of Islamic law itself While evidence for the resurrection has been legally examined since the seventeenth century legal apologetics has primarily utilized secular law systems such as Anglo American common law In this study Dr Madanat tests evidence for the crucifixion and resurrection against Islam s fixed theocratic law of Sharia Offering an overview of the evolution and constitution of Islamic law Dr Madanat examines how eyewitness testimonies and confessions in the New Testament hold up against Islam s strict standards for evidence Authenticating the Gospels using the same standards Islamic scholars use to defend the authenticity of the Qur an and Sunna Madanat examines the testimonies of the four evangelists the confessions of James and Paul and the circumstantial evidence offered by archeology church history and the Christian impact on civilization This book engages with Islam and its sacred texts seriously and with respect providing a powerful resource for those interested in apologetics and comparative religion

**Why Believe?** Neil Shenvi, 2022-05-20 Chemist and Christian Apologist Neil Shenvi Explores the Evidence for Christianity For centuries skeptics have disputed the claims of Christianity such as belief in an eternal God and the resurrection of Jesus Christ arguing that they simply cannot be accepted

by reasonable individuals Furthermore efforts to demonstrate the evidence and rational basis for Christianity through apologetics are often deemed too simplistic to be taken seriously in intellectual circles Apologist and theoretical chemist Neil Shenvi engages some of the best contemporary arguments against Christianity presenting compelling evidence for the identity of Jesus as portrayed in the Gospels his death and resurrection the existence of God and the unique message of the gospel Why Believe calls readers from all backgrounds not only to accept Christianity as true but also to entrust their lives to Christ and worship him alone Accessible without Being Simplistic Ideal for intellectuals and academics as well as high school and college students Well Researched Interacts with skeptical arguments against Christianity and God s existence Biblical Grounded in Scripture and centered on the claims of the gospel

**Reboot!** Phil Burgess, 2011-08 Reboot to work retirement is a disease It s better to wear out than rust out That is the message of Reboot While American culture glamorizes the Golden Years of endless leisure and amusement Phil Burgess rejects retirement as he makes the case for returning to work in the post career years a time he calls later life Based on solid research from the social and medical sciences the author says It is better to die with your boots on fully engaged in helping others and repairing the world Reboot is partly autobiographical Indeed the author is working well into his own post career years following two failed retirements He is also convincing in his eye opening historically rooted and hope filled arguments for engaging in life long work that is productive and satisfying Reboot identifies five different types of work in kind volunteer Samaritan enrichment and paid work Booters who incorporate one or more of these types of work into their post career lifestyle will according to Burgess live longer live better and die faster avoiding boredom aimless busy ness diminished self worth and the anguish and cost of lingering death With America s 78 million boomers turning 65 at the rate of 10 000 a day for the next 18 years Reboot provides a timely and provocative alternative to the conventional idea of retirement With the promises of Social Security and Medicare about to be broken Reboot provides an upbeat and constructive way to deal with new financial realities For men and women navigating life s transitions striving to finish well Reboot provides a roadmap for living a life of meaning challenging the reader to be a booter not a retiree Burgess boldly asserts that retirement is a deadly disease and that work after a life of work is the best option for post career years that are meaningful productive healthy and satisfying See [www.BooterNation.com](http://www.BooterNation.com) Excerpts On retirement Not all ideas are good ideas Some are bad ideas Retirement is one of those bad ideas it makes no sense Retirement is not natural It is not historic It is not healthy It is not for most people fulfilling For many retirement is a widow maker On the value of work The social engagement and satisfaction that come from working in later life are keys to successful aging There is much work to do in this world where we are but temporary inhabitants We should find it and do it at least for as long as we re able In many ways our life depends on it On work and money Work is not only about money Even if you don t need the money and your financial situation is stable and comfortable returning to work in your post career life is the smart thing to do at least until sidelined by frailty or disability It s smart because good health and satisfaction in later life

are most likely to come from working On different types of work For most of us post career work will be tailored work work customized to reflect our needs our deepest desires and the highest and best use of our gifts especially time talent and treasure Work tailored to our gifts will be productive and satisfying **Cooperative Salvation** Kathryn S.

Eisenbise,2014-12-05 Why did Jesus die What does it mean that Jesus died for our sins Christian theology has been wrestling with these questions for centuries and theologians have proposed lots of different answers and explanations in the form of theories of atonement But most of these theories fall short when confronted by a contemporary postmodern worldview Many of these models come out of orthodox rather than Free Church traditions so they also lack the distinctive elements that characterize Brethren ways of understanding God and the world The Church of the Brethren is well known for its acts of service and discipleship in the nonviolent model of Jesus but it has not produced much constructive theology Cooperative Salvation attempts to remedy this situation by proposing a constructive Brethren model of atonement It analyzes the diverse atonement models proposed throughout the Christian tradition noting where they prove inadequate To address the shortcomings of other models this work draws on important claims of historical Anabaptist and Brethren theology while also incorporating ideas from feminist liberation and process theology in order to construct an understanding of atonement that contributes a contemporary Brethren voice to the centuries long discussion of atonement **God the Bestseller** Stephen Prothero,2023-03-14 New York Times bestselling author and acclaimed religion scholar Stephen Prothero captures the compelling and unique saga of twentieth century America on an identity quest through the eyes and books of one of the most influential editors of the day a search born of two world wars for resolution of our divided identity as a Christian nation and a nation of religions One summer evening in 1916 in Blanchester Ohio a sixteen year old farm boy was riding his horse past the town cemetery The horse reared back and whinnied and Eugene Exman saw God For the rest of his life he struggled to recreate that moment Through a treasure of personal letters and papers God the Bestseller explores Exman s personal quest A journey that would lead him in the late 1920s to the Harper religious books department which he turned during the Great Depression into a money making juggernaut and the country s top religion publisher Exman s role in the shaping of American religion is undeniable Here was a man who was ahead of his time and leading the rest of the nation through books on a spiritual exploration Exman published bestsellers by the controversial preacher Harry Emerson Fosdick the Catholic radical Dorothy Day the Civil Rights pioneer Howard Thurman and two Nobel laureates Albert Schweitzer and Martin Luther King Jr Exman did not just sit at a desk and read In addition to his lifelong relationships with the most influential leaders of the day Exman was on a spiritual journey of his own traversing the world in search of God He founded a club of mystics dropped acid in 1958 four years before Timothy Leary And six years before The Beatles went to India he found a guru there in 1962 In the end this is the story of the popularization of the religion of experience a cultural story of modern America on a quest of its own Exman helped to reimagine and remake American religion turning the United States into a place where denominational

boundaries are blurred diversity is valued and the only creed is that individual spiritual experience is the essence of religion

Religious Literacy LP Stephen Prothero,2007-05 The United States is a deeply religious nation yet many Americans even the most devout are shockingly ignorant about religion

**God Not One** EZRA. HALPERIN,2025-09-25 Are all religions simply different paths to the same God For decades that comforting myth has been repeated in classrooms pulpits and conversations across the globe But in today s fragmented rapidly changing world the truth is far more complex and far more urgent In this bold timely work religion scholar Ezra Halperin revisits and expands Stephen Prothero s groundbreaking argument in *God Is Not One* He shows that while the world s great traditions each address humanity s deepest questions they do so in profoundly different ways and now must also confront modern crises that test their very survival From climate change and technology to pluralism identity and even species extinction religions are not fading into irrelevance They remain powerful forces shaping culture politics and ethics and their differences matter more than ever Through accessible analysis vivid case studies and a storyteller s clarity Halperin guides readers across eight defining challenges The Problem of Meaning Christianity Buddhism secular humanism and digital spirituality The Problem of Suffering Hindu karma Buddhist dukkha and pandemic responses The Problem of Belonging Judaism Islam and the rise of nationalist religions The Problem of Justice Power Confucian harmony liberation theology indigenous balance The Problem of Nature Daoism eco spirituality and climate activism The Problem of Technology transhumanism AI and the digital sacred The Problem of Death Extinction afterlife promises cycles of rebirth secular mortality The Problem of Pluralism coexistence rivalry and the theology of difference *God Is Still Not One* challenges easy clichés and calls for a more honest mature engagement with religious difference Rather than flattening diversity into sameness Halperin argues humanity s future depends on learning to live with real difference without rivalry without erasure and without illusion Perfect for readers of Stephen Prothero Karen Armstrong Huston Smith and Yuval Noah Harari this book is both a sweeping overview of world religions and a provocative guide to the 21st century s greatest spiritual challenges If you ve ever wondered how Christianity Islam Hinduism Buddhism Judaism and secular visions really compare and how they re adapting to global crises this is the essential book you need now
