The right to food and freedom from hunger re-emerged during 1990s. Consequently, the right to adequate food is recognized as a fundamental human right. The world communities further pledged in 2000 to cut the number of the world's hungry people to half between 1990 and 2015 as one of the Millennium Development Goals. United Nations 2008 Food security is an important means to realize the right to food. It means the assured access to adequate food to all members of the household throughout the year. The Nobel Laureate Amartya Sen 1981 has suggested a framework of food entitlement in order to understand the genesis of hunger and the access to food. According to him, own production, stored wealth, employment, kinship and government transfers are all possible sources of food entitlement.
