Future Communication Technology and Engineering Kennis Chan, 2015-04-06 This volume contains the papers presented at the 2014 International Conference on Future Communication Technology and Engineering FCTE2014 taking place in Shenzhen China from 16-17 November 2014. Communication technologies are developing quickly and there are more possibilities for future communication technologies provided by the achievements made rather than limitations. At the convention innovative and inspiring ideas were presented; certain controversial topics were discussed, e.g. what are the most efficient/convenient methods for information communication and what is the most probable prospect for future communication technology. It is difficult to make any definite conclusions from these presentations and discussions, but the desire and drive for improvement and development shown by the participants/authors are surely remarkable and respectable. In this book 70 papers are included, chosen from hundreds of submissions contributed by scientists from various countries and regions after careful reading and discussing by a team of reviewers. These papers cover almost every possible aspect of communication technology, including communication systems, automation and control engineering, electrical engineering, AI, algorithms, signal processing, data mining, and knowledge-based systems. Artificial Intelligence and Evolutionary Computations in Engineering Systems Subhransu Sekhar Dash, K. Vijayakumar, Bijaya Ketan Panigrahi, Swagatam Das, 2017-07-11 The volume is a collection of high-quality peer-reviewed research papers presented in the International Conference on Artificial Intelligence and Evolutionary Computation in Engineering Systems ICAIECES 2016 held at SRM University Chennai, Tamil Nadu, India. This conference is an international forum for industry professionals and researchers to deliberate and state their research findings, discuss the latest advancements, and explore the future directions in the emerging areas of engineering and technology. The book presents original work and novel ideas, information techniques, and applications in the field of communication, computing, and power technologies. **eWork and eBusiness in Architecture, Engineering and Construction** Alain Zarli, Raimar Scherer, 2008-09-03 Since 1994 the European Conference on Product and Process Modelling (www.ecppm.org) has been providing a review of research, development, and industrial implementation of product and process model technology in construction.
