Word Choice Reference For Describing Performance:

Testing and Assessment in Translation and Interpreting Studies Claudia V. Angelelli, Holly E. Jacobson, 2009-10-22
Testing and Assessment in Translation and Interpreting Studies examines issues of measurement that are essential to translation and interpreting. Conceptualizing testing both as a process and a product, the collection of papers explores these issues across languages and settings including university classrooms, research projects, the private sector, and professional associations. The authors have approached their chapters from different perspectives using a variety of methods, some focusing on very specific variables and others providing a much broader overview of the issues at hand. Chapters range from a discussion of the measurement of text cohesion in translation, the measurement of interactional competence in interpreting, the use of a particular scale to measure interpreters' renditions, to the application of a specific approach to grading or general program assessment, such as interpreter or translator certification at the national level or program admissions processes. These studies point to the need for greater integration of research and practice in the specific area of testing and assessment and are a welcome addition to the field. *Performance Standards: Middle school* (Organization), 1997

Exemplars of Assessment in Higher Education, Volume Two Jane Marie Souza, Tara A. Rose, 2023-11-09
In this second volume of the successful *Exemplars of Assessment in Higher Education*, editors Souza and Rose share examples of assessment practice from over fifteen distinct and diverse Higher Education Institutions, including international contributions. Building upon the work of the first volume, the case studies in this book reflect the changes in assessment and higher education in the post-Covid education environment. The institutions that appear in this book were chosen for having an effective assessment approach in one or more of the following areas: career readiness, distance education, diversity, equity, and inclusion, or general education. Each part of the book discusses one of these four areas with chapters that feature real-life examples from the educators who teach at the college or university. Featuring a Foreword by AACU President Lynn Pasquerella, the work highlighted in this book is also aligned with AACU's Valid Assessment of Learning in Undergraduate Education (VALUE) initiative to help educators make the best decisions about measuring student learning. This book is ideal for university educators and assessment practitioners looking to diversify and enhance their assessment practices. A Co-Publication with AACU.
