55264A Introduction to Programming Using Python Neil Tucker, Jr., 2023-05-17
This five day instructor led course is intended for students who want to learn how to write Python code that logically solves problems. Candidates will learn how to write, debug and document Python code. Lab exercises are done with cloud resources: web sites, databases, virtual machines, etc. created by students. To ensure that students are able to use their knowledge for real world applications, they use free resources on Microsoft Azure's cloud platform to create web sites, databases, Blobs, virtual machines, and other objects. Students may continue to use these resources after the class. When necessary, updates to the student materials will be freely accessible by current and past students on GitHub: <https://github.com/neiltucker/55264A>
