dancing device and don't change their approach to include TikTok content they'll be really bitter in a couple of years. Watching Instagram influencers repurpose Instagram content to TikTok at the start of lockdown shows the polished advertising on this site doesn't wash. We always noticed when Instagram stories came up there was a trend for shorter, more digestible content. Yet TikTok proves that users can return for more when you get the form of content right. According to official figures from TikTok, its customers remain faithful and are starting to return to the app. In fact, 90% of users use the app several times a day. Overall, TikTok is asking us to reconsider the way our content is strategized. I do hope these tips give you some ideas on how to handle TikTok and the way you prepare and create your content in general.

Giannakis, 2001. This is the second in a two-volume set that captures major recent advances in signal processing SP tools as they apply to wireless and mobile communication systems. The set brings together contributions by leaders in the field worldwide and covers an exceptionally wide range of technologies and methodologies including noise and interference cancellation, modem design, mobile Internet services, next-generation audio/video broadcasting, cellular telephony, and wireless multimedia networks. Volume II focuses on single and multi-user communication systems. Volume II presents valuable new signal processing work on blind synchronization with single and multi-sensor arrays, space-time transmit/receive diversity combining systems, time-varying channel modeling, signal separation with constant modulus constraints, and parallel factor analysis tools. Volume II also presents important advances in multiuser systems, notably modern methods for canceling multiuser interference and mitigating multipath effects in CDMA and multicarrier systems at the physical layer, as well as signal processing issues at the network layer.
