American Men and Women in Medicine, Applied Sciences and Engineering with Roots in Czechoslovakia Miloslav Rechcigl Jr., 2021-02-17 No comprehensive study has been undertaken about the American learned men and women with Czechoslovak roots. The aim of this work is to correct this glaring deficiency with the focus on men and women in medicine, applied sciences, and engineering. It covers immigration from the period of mass migration and beyond, irrespective of whether they were born in their European ancestral homes or whether they have descended from them. This compendium clearly demonstrates the Czech and Slovak immigrants, including Bohemian Jews, have brought to the New World in these areas their talents, their ingenuity, their technical skills, their scientific knowhow, as well as their humanistic and spiritual upbringing, reflecting upon the richness of their culture and traditions developed throughout centuries in their ancestral home. This accounts for their remarkable success and achievements of these settlers in the New World, transcending through their descendants, as this publication demonstrates. The monograph has been organized into sections by subject areas: i.e. Medicine, Allied Health Sciences, and Social Services, Agricultural and Food Science, Earth and Environmental Sciences, and Engineering. Each individual entry is usually accompanied with literature and additional biographical sources for readers who wish to pursue a deeper study. The selection of individuals has been strictly based on geographical vantage, without regards to their native language or ethnical background. Some of the entries may surprise you because their Czech or Slovak ancestry has not been generally known. What is conspicuous is a large percentage of listed individuals being Jewish, which is a reflection of a high level of education and intellect of Bohemian Jews. A prodigious number of accomplished women in this study is also astounding, considering that in the 19th century they rarely had careers and most professions refused entry to them.

The Power of Fastercise Denis Wilson, 2019-10-25 A revolutionary program of short burst, high intensity exercise that uses your body's signals to curb hunger as it burns fat and builds muscle. Over the last 26 years, thyroid pioneer Denis Wilson, MD, has trained thousands of physicians on the crucial relationships between the thyroid system, metabolism, and body temperature. He's heard patients recount their inability to get fit using conventional approaches, and he's understood their frustration. Based on the latest medical research, Dr. Wilson has created Fastercise, a revolutionary practice that uses brief, strategically timed bursts of exercise to cancel hunger pangs, allowing people to more easily stick to a healthy eating plan and shift their bodies toward becoming leaner, faster, smarter, stronger, and healthier. Fastercise holds the promise of vindicating and liberating many of those who have struggled to improve their fitness, enabling them to transform their lives and reach their full potential. By combining simple analogies and clear explanations of the physiology of the body's energy pathways and response to food and exercise, Dr. Wilson reveals how conventional approaches to dieting and weight management can actually fight against the body's priorities and lead to frustration and poor results. Fastercise is a time-efficient, convenient, and natural approach that powerfully signals the body to burn fat and build muscle synergistically, leading to surprisingly

beneficial and quick results The Power of Fasteercise explains how fasteercise can help you Burn fat without going hungry Build your mitochondria to burn more fat and provide greater energy Stimulate muscle growth in just a few minutes a day Shift your body composition to less fat and more muscle Boost your body temperature and metabolic rate Look and feel younger Increase mental focus learning and productivity Decrease insulin resistance Decrease inflammation and improve immune function Improve respiratory fitness and athletic performance Get great results with any healthy diet including low carb and high carb In this groundbreaking book Dr Wilson lays out simple practical strategies for combining fasteercise with smart eating choices Fasteercise can provide excellent results for a wide range of people seasoned athletes fitness enthusiasts and even those who dislike exercising or have physical limitations Whatever your fitness goals are fasteercise can help you achieve them
