Jihad In Classical And Modern Islam:

Jihad in Classical and Modern Islam Rudolph Peters, 2005 This edition includes a new chapter on the Notion of Jihad at the Turn of the 21st Century an updated bibliography and a new introduction Review of the 1996 Edition It helps us understand the wider social and moral senses of Jihad _Library Journal This book demonstrates that the notion of jihad Holy War is very much alive in the Islamic world and plays a prominent political role Western observers usually associate jihad with fanaticism while Islamists emphasize its mission as a crusade against drugs and other societal scourges Six Islamic texts are presented which compiler Peters has translated These texts include first of all a number of hadiths which present the raw material for Islamic law The texts that follow include portions from Malik s Al Muwatta the chapter on Jihad from Averroes legal handbook al Bidaya teachings of Ibn Taymiyya on Jihad the Ottoman Jihad Fatwa of 1914 and Mahmud Shaltut s treatise Koran and Fighting which is a modernist interpretation of jihad These texts are followed by two well written articles by Peters This is a very valuable work for all who wish to understand the meaning importance and practice of Jihad for Muslims today as well as in the past Highly recommended Choice Rudolph F Peters University of Amsterdam and director of the Netherlands Institute in Cairo is the author of Islam and Colonialism and numerous other books *Jihad in Classical and Modern Islam* Mohammad Haniff Hassan, Mohammad bin Ali, 2007 Jihad in Islamic History Michael Bonner, 2008-07-28 What is jihad Does it mean violence as many non Muslims assume Or does it mean peace as some Muslims insist Because jihad is closely associated with the early spread of Islam today s debate about the origin and meaning of jihad is nothing less than a struggle over Islam itself In Jihad in Islamic History Michael Bonner provides the first study in English that focuses on the early history of jihad shedding much needed light on the most recent controversies over jihad To some jihad is the essence of radical Islamist ideology a synonym for terrorism and even proof of Islam s innate violence To others jihad means a peaceful individual and internal spiritual striving Bonner however shows that those who argue that jihad means only violence or only peace are both wrong Jihad is a complex set of doctrines and practices that have changed over time and continue to evolve today The Quran s messages about fighting and jihad are inseparable from its requirements of generosity and care for the poor Jihad has often been a constructive and creative force the key to building new Islamic societies and states Jihad has regulated relations between Muslims and non Muslims in peace as well as in war And while today s jihadists are in some ways following the classical jihad tradition they have in other ways completely broken with it Written for general readers who want to understand jihad and its controversies Jihad in Islamic History will also interest specialists because of its original arguments *Martyrdom, not Suicide: The Legality of Hamas' Bombings in the mid-1990s in Modern Islamic Jurisprudence* Philipp Holtmann, 2009-11-17 Scientific Study from the year 2009 in the subject Politics International Politics Region Near East Near Orient language English abstract This study deals with the development of Hamas jihad concept and the justification by Muslim clerics of Hamas suicide martyrdom doctrine After discussing the political context the Islamic

legal argument is analyzed in detail The findings give policy makers journalists academics and also non experts insight into the thinking and ideology of Islamists in a conflict state The implications of the findings are much wider than the national Palestinian context For example in the global confrontation between the West and militant Islam a change of strategy from military to political methods would be timely This study developed during more than two years of in depth research and is based mainly on Arabic sources Martyrdom, Not Suicide Philipp Holtmann,2009-11 Scientific Study from the year 2009 in the subject Politics International Politics Region Near East Near Orient language English abstract This study deals with the development of Hamas jihad concept and the justification by Muslim clerics of Hamas suicide martyrdom doctrine After discussing the political context the Islamic legal argument is analyzed in detail The findings give policy makers journalists academics and also non experts insight into the thinking and ideology of Islamists in a conflict state The implications of the findings are much wider than the national Palestinian context For example in the global confrontation between the West and militant Islam a change of strategy from military to political methods would be timely This study developed during more than two years of in depth research and is based mainly on Arabic sources Leaving Islam Ibn Warraq,2009-12-02 A renowned scholar of Islamic studies interviews ex Muslims who feel it is their duty to speak up against their former faith to tell the truth about the fastest growing religion in the world Politics of the Modern Arab World Laleh Khalili,2009 Covers the Arab world from Morocco to the borders of Iran with the focus primarily on the 20th Century By choosing a wide array of authors many of whom are from the region or from the non Anglophone world the full breadth of worldwide scholarship on the modern Arab world is on display The Maghreb Review ,2004 **Religion in Society** Ronald L. Johnstone,2004 This book offers a sound analysis of religion as a social institution that is interdependent and in constant interaction with other societal units It helps readers understand the role and function of religion in society that occur regardless of anyone s claims about the truth or falsity of religious systems Balanced and unbiased it shows the sociology of religion as a subject that is rich and bountiful The focus is on American religious institutions but includes many examples of the interaction of religion and society in other cultures both historic and contemporary readers will encounter major discussions of Islam and other non Western religions For sociologists clergy and researchers in the fields of religion and religious studies Global Dialogue ,2005 **The American Journal of Islamic Social Sciences** ,2002 **Journal of South Asian and Middle Eastern Studies** ,1997 **Princeton Papers** ,2001 **The Encyclopedia of Politics and Religion: A-J** Robert Wuthnow,1998 *Journal of Peace Research* ,2007 *Myth of Islamic Tolerance* Robert Spencer,2005-01-31 This collection of essays by some of the world s leading authorities on Islamic social history focuses on the juridical and cultural oppression of non Muslims in Islamic societies The authors of these in depth but accessible articles explode the widely diffused myth promulgated by Muslim advocacy groups of a largely tolerant pluralistic Islam In fact the contributors lay bare the oppressive legal superstructure that has treated non Muslims in Muslim societies as oppressed and humiliated tributaries

and they show the devastating effects of these discriminatory attitudes and practices in both past and contemporary global conflicts Besides original articles primary source documents here presented also elucidate how the legally mandated subjugation of non Muslims under Islamic law stems from the Muslim concept of jihad the spread of Islam through conquest Historically the Arab Muslim conquerors overran vast territories containing diverse non Muslim populations Many of these conquered people surrendered to Muslim domination under a special treaty called dhimma in Arabic As such these non Muslim indigenous populations mainly Christians and Jews were then classified under Islamic law as dhimmis meaning protected Although protected status may sound benign this classification in fact referred to protection from the resumption of the jihad against non Muslims pending their adherence to a system of legal and financial oppression as well as social isolation The authors maintain that underlying this religious caste system is a culturally ingrained contempt for outsiders that still characterizes much of the Islamic world today and is a primary impetus for jihad terrorism Also discussed is the poll tax Arabic jizya levied on non Muslims the Islamic critique of the Universal Declaration of Human Rights the use of jihad ideology by twentieth century radical Muslim theorists and other provocative topics usually ignored by Muslim apologists This hard hitting and absorbing critique of Islamic teachings and practices regarding non Muslim minorities exposes a significant human rights scandal that rarely receives any mention either in academic circles or in the mainstream press
