Chapters are written in an engaging and interactive style and where appropriate draw upon case studies and scenarios to maximize engagement, developing competence by informing knowledge, attitudes and skills. Irrespective of whether one cares for older people in an acute hospital setting or domiciliary home care, this text will be of relevance. The material and content transcend health and social care boundaries providing valuable contemporary evidence that can inform and shape practice. Above all, this text will

encourage reflection dialogue and engagement with some fundamental aspects of ageing challenging attitudes values and behaviour so that a more positive and balanced insight towards ageing is fostered This book will ensure that self awareness and professional practice are enriched and informed and the practitioner has a holistic understanding of ageing that will enable them to care for older people with compassion dignity and respect     **Subject Guide to Books in Print** ,1971
