

# TELL ME QUESTIONS

At the start of your practical driving test, the Driving Examiner will ask you one of the following "Tell Me" questions. Once your test is underway and you are driving, you will be asked one of the following "Show Me" questions. Knowing the answer to these gives you a confident start to your driving test and also gives the examiner confidence in your initial abilities.

The questions are in bold, the required answers are in *italics*.

**1 – [Q]** Tell me how you'd check that the brakes are working before starting a journey.

*(A) Advise that if you were to press the footbrake with the engine turned off, it should feel quite firm. It should not feel spongy, soft or slack. If you were to drive the vehicle a short distance and test the footbrake, it should slow the car down but should not pull the car to one side or the other.*

**2 – [Q]** Tell me where you'd find the information for the recommended tyre pressures for this car and how tyre pressures should be checked.

*(A) Advise that the tyre pressures for this car are to be found in the owner's manual which is in the front left passenger door pocket and are on the car body by the front (passenger/driver) door. You would take the car to a garage and check the tyre pressures with a reliable pressure gauge when the tyres are cold.*

**3 – [Q]** Tell me how you make sure your head restraint is correctly adjusted so it provides the best protection in the event of a crash.

*(A) Advise that the head restraint should be adjusted so the rigid centre part of the head restraint is at least as high as your eye or top of your ears, and as close to the back of the head as is comfortable. Not all head restraints are adjustable.*

**4 – [Q]** Tell me how you'd check the tyres to ensure that they have sufficient tread depth and that their general condition is safe to use on the road.

*(A) Advise that the tyres should have at least 1.6 mm of tread depth across the central 3/4 of the breadth of the tyre and around the entire outer circumference. You would also examine the tyres to make sure that they have no cuts or bulges and there are no foreign objects embedded in the tyre.*

**5 – [Q]** Tell me how you'd check that the headlights and tail lights are working. You don't need to exit vehicle.

*(A) Advise that you would turn the head lights and tail lights on and then you would walk around the car to check that they were all working.*

**6 – [Q]** Tell me how you'd know if there was a problem with your anti-lock braking system.

*(A) Advise that the orange warning light on the dashboard would illuminate if there was a fault with the anti-lock braking system. This illuminates when the engine is started and should go off. If it remains lit, this would indicate a fault.*

**7 – [Q]** Tell me how you'd check the direction indicators are working. You don't need to exit the vehicle.

*(A) Explain that you would press the hazard warning light switch and then walk around the car to check that all six indicators are working.*

**8 – [Q]** Tell me how you'd check the brake lights are working on this car.

*(A) Explain that you'd operate the footbrake and make use of reflections in windows or doors or ask someone to help you.*

**9 – [Q]** Tell me how you'd check the power assisted steering is working before starting a journey.

*(A) Explain that if you turn the steering wheel with the engine turned off, the steering will be very hard/heavy to turn. Once the car has been started, the steering will be much easier to turn. This means that the power assisted steering is working. You may also notice a slight but noticeable movement when starting the car.*
