Combinatorial Algorithms : Theory and Practice ,1977 Edward M. Reingold, Jurg Nievergelt, Narsingh Deo, 1977 *Computational Intelligence. Theory and Applications* Bernd Reusch, 2003-06-30 Ten years of Fuzzy Days in Dortmund What started as a relatively small workshop in 1991 has now become one of the best known smaller conferences on Computational Intelligence in the world It fact it was to my best knowledge the rst conference to use this term in 1994 although I confess that another larger conference was announced rst and the trade mark Computational Intelligence was not coined in Dortmund I believe that the success of this conference is grounded on the quality of its reviewed and invited papers as well as its good organization From the beginning we have sent every paper anonymously to referees and we have always accepted only around 50% of the papers sent in This year it was a little less than that I would like to thank everybody who helped us by considering Dortmund s Fuzzy Days as the conference at which to appear I know that among the stracts not accepted there were some quite good ones but we were restricted to a xed number I also know that referees do a good job but cannot always judge wisely from abstracts Hence my apologies to those who did not make it this year Please try again I would like to point out that our conference also has a good regional re tation I am grateful to the City of Dortmund its Lord Mayor Dr Langemeyer the Dortmund project the DFG Deutsche Forschungsgemeinschaft the KVR Kommunalverband Ruhrgebiet the Martin Schmei er Stiftung and the C line AG Quantum GmbH for their valuable support
