

The background of the cover is a vibrant, stylized illustration of a lush, mountainous landscape. In the foreground, two characters stand prominently: a man with short brown hair wearing a red shawl over a grey tunic, and a woman with dark skin wearing a tall, pointed red headdress and a patterned brown and red dress. They are surrounded by a dense crowd of smaller figures in similar attire. In the upper left, a large, colorful, abstract shape resembling a face or a mask is visible. The overall style is reminiscent of the game's art direction.

Women in Classical Video Games Jane Draycott,Kate Cook,2022-08-11 Despite the prevalence of video

games set in or inspired by classical antiquity the medium has to date remained markedly understudied in the disciplines of classics and ancient history with the role of women in these video games especially neglected Women in Classical Video Games seeks to address this imbalance as the first book length work of scholarship to examine the depiction of women in video games set in classical antiquity The volume surveys the history of women in these games and the range of figures presented from the 1980s to the present alongside discussion of issues such as historical accuracy authenticity gender sexuality monstrosity hegemony race and ethnicity and the use of tropes A wide range of games of different types and modes are discussed including platformers strategy games roguelikes MOBA action RPGs and story driven romance mobile games The detailed case studies presented here form a compelling case for the indispensability of the medium to both reception studies and gender studies and offer nuanced answers to such questions as how and why women are portrayed in the ways that they are

Multimodal Semiotics and Rhetoric in Videogames Jason Hawreliak,2018-09-14 This book merges recent trends in game studies and multimodal studies to explore the relationship between the interaction between videogames different modes and the ways in which they inform meaning for both players and designers The volume begins by laying the foundation for integrating the two disciplines drawing upon social semiotic and discourse analytic traditions to examine their relationship with meaning in videogames The book uses a wide range of games as examples to demonstrate the medium s various forms of expression at work including audio visual textual haptic and procedural modes with a particular focus on the procedural form which emphasizes processes and causal relationships to better showcase its link with meaning making The second half of the book engages in a discussion of different multimodal configurations and user generated content to show how they contribute to the negotiation of meaning in the player experience including their role in constructing and perpetuating persuasive messages and in driving interesting and unique player decisions in gameplay Making the case for the benefits of multimodal approaches to game studies this volume is key reading for students and researchers in multimodal studies game studies rhetoric semiotics and discourse analysis
