Müller,1997 **Functional Reverse Engineering of Machine Tools** Wasim Ahmed Khan,Ghulam Abbas,Khalid Rahman,Ghulam Hussain,Cedric Aimal Edwin,2019-09-23 The purpose of this book is to develop capacity building in strategic and non strategic machine tool technology The book contains chapters on how to functionally reverse engineer strategic and non strategic computer numerical control machinery Numerous engineering areas such as mechanical engineering electrical engineering control engineering and computer hardware and software engineering are covered The book offers guidelines and covers design for machine tools prototyping augmented reality for machine tools modern communication strategies and enterprises of functional reverse engineering along with case studies Features Presents capacity building in machine tool development Discusses engineering design for machine tools Covers prototyping of strategic and non strategic machine tools Illustrates augmented reality for machine tools Includes Internet of Things IoT for machine tools **Guide to the Software Engineering Body of Knowledge** Alain Abran,James W. Moore,2004 The purpose of the Guide to the Software Engineering Body of Knowledge is to provide a validated classification of the bounds of the software engineering discipline and topical access that will support this discipline The Body of Knowledge is subdivided into ten software engineering Knowledge Areas KA that differentiate among the various important concepts allowing readers to find their way quickly to subjects of interest Upon finding a subject readers are referred to key papers or book chapters

Emphases on engineering practice lead the Guide toward a strong relationship with the normative literature. The normative literature is validated by consensus formed among practitioners and is concentrated in standards and related documents. The two major standards bodies for software engineering, IEEE Computer Society Software and Systems Engineering Standards Committee and ISO IEC JTC1 SC7, are represented in the project.
