Transformer Tests Using Matlab Simulink And Their:

Proceedings of the International Conference on Intelligent Systems and Signal Processing Rahul Kher, Dr. Nikhil Gondaliya, Mukesh Bhesaniya, Latif Ladid, Mohammed Atiquzzaman, 2018-01-18 The book provides insights into International Conference on Intelligent Systems and Signal Processing ISSP 2017 held at G H Patel College of Engineering Technology Gujarat India during March 24 25 2017 The book comprises contributions by the research scholars and academicians covering the topics in signal processing and communication engineering applied electronics and emerging technologies computer vision and machine learning big data and cloud computing and advanced intelligent power electronics and drives systems The main emphasis of the book is on dissemination of information experience and research results on the current topics of interest through in depth discussions and contribution of researchers from all over world The book is useful for research community academicians industrialists and post graduate students across the globe

International Conference on Reliable Systems Engineering (ICoRSE) - 2023 Daniela Doina Cioboată, 2023-09-04 This book comprises state of the art research results in the field of mechatronics and other closely related areas and that will be presented on occasion of the third International Conference of Reliable Systems Engineering ICoRSE 2023 that will take place in Bucharest Romania between 07 08 September 2023 The first two ICoRSE editions brought together professors Ph D students and researchers in Europe North America and Asia in countries such as England Albania Austria Bulgaria Canada Czech Republic Germany France Italy Portugal Turkey Ukraine Uzbekistan and Vietnam In this year's edition of the conference we have benefitted from the inclusion in the scientific committee of the conference of professors in all of these countries and we cover a wide variety of topics such as theoretical and applied mechanics cyber physical systems robotics smart bio medical and bio mechatronic systems new and intelligent materials and structures modelling and simulation in mechanics and mechatronics smart mechatronic production and control system optics control systems big data modelling micro and nanotechnology automation manufacturing optimization and other Since the book's chapters represent contributions of scholars who work in both state funded institutions and in the business environment they reflect a clear picture of the novelties attained in the leading edge sciences that are in the scope of the conference It is our belief that the book is useful to both students and researchers in all areas of engineering who will each find at least one topic worthy of their interest in this work
