The Woman Question in Islamic Studies Kecia Ali, 2024-09-17 The interconnected ways that sexism functions in academic Islamic studies and how to shift professional norms toward parity Despite remarkable shifts in the demographics of Islamic studies in recent decades the field continues to be dominated by men who often relegate other scholars and their work particularly research on gender to its periphery while treating subfields in which men predominate as more rigorous and central In *The Woman Question in Islamic Studies* Kecia Ali explores the interconnected ways that sexism functions in academic Islamic studies Examining publications citations curricula and media representations

Ali finds that despite the growth and depth of scholarship on Islam and gender men continue to overlook women's scholarship even in work that purports to discuss gender issues. Moreover, media and social media dynamics make talking about Islam and Muslims for broader audiences especially fraught for scholars who are not men, particularly when the topic is gender or sexuality. Combining broad surveys with more focused analyses of a smaller set of texts, Ali shows that textbooks and syllabi continue to exclude women as historical actors and scholars and to marginalize gender and sexuality as subject matter. Finally, she provides a Beginner's Guide to Eradicating Sexism in Islamic Studies, offering practical strategies to help scholars avoid common pitfalls in their own work and contribute to broader professional transformations. Other, Please Specify D'Lane Compton, Tey Meadow, Kristen Schilt, 2018-07-31 This provocative collection showcases the work of emerging and established sociologists in the fields of sexuality and gender studies as they reflect on what it means to develop practice and teach queer methods. Located within the critical conversation about the possibilities and challenges of utilizing insights from humanistic queer epistemologies in social scientific research, *Other, Please Specify* presents to a new generation of researchers an array of experiences, insights, and approaches revealing the power of investigations of the social world. With contributions from sociologists who have helped define queer studies and who use a range of interpretative and statistical methods, this volume offers methodological advice and practical strategies in research design and execution, all with the intent of getting queer research off the ground and building a collaborative community within this emerging subfield. **Women in Populist Rhetoric** Agnieszka Kasińska-Metryka, Karolina

Pałka-Suchojad, 2025-07-28 At a time of increasing right-wing populism, *Women in Populist Rhetoric* examines the relationship between populist rhetoric and the real social changes that affect women and how populists gain prominence through the support they receive. Covering a broad spectrum of right-wing group activity in Western Central and Eastern Europe, including Hungary, France, and Czechia, this volume takes an important look at the phenomena at the level of leadership and the practice of its operation. The book is divided into four parts: the first describes the phenomenon of right-wing populism; the second examines language as a tool of populist influence; and the third and fourth analyze the narratives of populist parties towards women across different European countries. An important text for the present moment, *Women in Populist Rhetoric* is an invaluable text for students of politics, sociology, and gender studies. *More Than a Doll* Jodi Bondi Norgaard, 2025-01-21 When Jodi Bondi Norgaard, an experienced entrepreneur, attempted to shake up the toy industry with a sports doll that appeals to today's more athletic, adventurous girls, she came to realize the roadblocks to success weren't only reluctant toy buyers but a patriarchal culture that perpetuates gender roles and sexism. *More Than a Doll* is about her mission to break gender stereotypes and challenge the status quo. Through illuminating testimonials, data, research, interviews, and cultural observations, readers will come away with clear examples of the dangers of early gender stereotyping and how we continue to fail to see the harm. After all, it's just a toy, it's just a t-shirt, it's just a show. Bondi Norgaard is sounding the

siren that gender inequality doesn't begin in our teens it begins the moment a child can hold a toy or book or watch a screen. The programming starts early and the impact is lifelong.

Unequal Profession Meera E Deo, 2019-02-05. A study of the experiences of women of color law school faculty and the effect of race and gender on legal education. This book is the first formal empirical investigation into the law faculty experience using a distinctly intersectional lens, examining both the personal and professional lives of law faculty members. Comparing the professional and personal experiences of women of color professors with white women, white men, and men of color faculty from assistant professor through dean emeritus, *Unequal Profession* explores how the race and gender of individual legal academics affects not only their individual and collective experience but also legal education as a whole. Drawing on quantitative and qualitative empirical data, Meera E Deo reveals how race and gender intersect to create profound implications for women of color law faculty members, presenting unique challenges as well as opportunities to improve educational and professional outcomes in legal education. Deo shares the powerful stories of law faculty who find themselves confronting intersectional discrimination and implicit bias in the form of silencing, mansplaining, and the presumption of incompetence, to name a few. Through hiring, teaching, colleague interaction, and tenure and promotion, Deo brings the experiences of diverse faculty to life and proposes several mechanisms to increase diversity within legal academia and to improve the experience of all faculty members. Praise for *Unequal Profession*: Fascinating, shocking, and infuriating. Meera Deo's careful qualitative research exposes the institutional practices and cultural norms that maintain a separate and unequal race/gender order even within the privileged ranks of tenure-track law professors. With riveting quotes from faculty across a range of institutional and social positions, *Unequal Profession* powerfully reminds us that we must do better. I saw my own career in this book and you might too. Angela P Harris, University of California, Davis. A powerful account of inequality in legal academia. Quantitative data and compelling narratives bring to life the challenges and roadblocks in gaining not just entry and tenure but also respect for the voices of minority women within the academy. There are no easy remedies, but reading this book is a good place to start for lawyers and law professors to understand what minority women face and which practices can increase the odds of success. Bryant G Garth, University of California, Irvine. *Unequal Profession* should be mandatory reading for everyone in legal academia. By providing concrete evidence of systemic discrimination, Meera Deo illuminates a long-standing problem needing to be remedied. Sarah Deer, University of Kansas.
