Instructions for the Modified Jones

The modified Jones scale is the right of Jones is arranged in three levels. One end is five if the patient fails to respond satisfactorily to any items, marks the "0" at the left end of the scale. This score indicates that the patient had difficulty performing their particular skill. If the patient responds correctly and without difficulty on the items, mark "12." A score of "12" indicates clearly normal or functional behavior. The numbers between either extreme suggest some degree of abnormal function.
