disciplines Linking Health and Education for African American Students' Success Nadine M. Finigan-Carr,2017-03-16 The linkages between a student s health and a student s ability to learn have been well established Children who are sick stay home and children at home cannot learn if they are not in school leading to increased dropout rates among other educational outcomes However an understanding of this concept is just the beginning of understanding how education and public health are inextricably linked In light of this Linking Health and Education for African American Students Success examines health disparities and education inequities simultaneously and moves beyond a basic understanding of health and education in K 12 school programs The structural inequalities which lead to reduced academic attainment mirror the social determinants of health Education is one of the most powerful determinants of health and disparities in educational achievement as a result of structural inequalities closely track disparities in health These disparities lead to both sub standard healthcare and reduced academic attainment among children from underserved minorities in the United States especially African Americans This book discusses how this may result in children with poorer mental health outcomes higher school dropout rates increased risks of arrests and incarceration higher rates of chronic diseases and mortality and overall diminished opportunities for success while providing suggestions as to how to address these issues This results in an insightful read for researchers academics and practitioners in the fields of healthcare and education *The School to Prison Pipeline* Nathern Okilwa,Muhammad Khalifa,Felecia Briscoe,2017-03-03 This edited volume focuses on the role that school climate and disciplinary practices have on the educational and social experiences of students of color

**DISPROPORTIONALITY IN EDUCATION AND SPECIAL EDUCATION** Amity Lynn Noltemeyer,Caven S. Mcloughlin,2012-07-01 Given the burgeoning number of diverse students in our nation s schools coupled with the potentially negative outcomes and wasted resources associated with the misidentification of students for special education and excessive use of exclusionary discipline for specific subgroups of students it is imperative that educational professionals understand and address the implications arising from disproportionality for children both with and without disabilities This text contributes unique perspectives and up to date information including advances and research that have emerged since the last of the extant books was published Presented in three sections the first considers disproportionality in special education identification with chapters examining overrepresentation by ethnicity gender and language The second section addresses disproportionality in discipline specifically focusing on inequalities in school disciplinary actions and juvenile justice decisions based on ethnicity and gender The final section provides readers with approaches for addressing disproportionality and creating more equitable learning environments now and in the future The text encourages bidirectional and evolving relationships between the topics examined in each chapter with the historical framework presented Because of the comprehensive nature of the topics covered in the book it is an ideal one stop reference for readers aiming to acquire a broad understanding of the key issues related to the topic The book will appeal to a range of potential readers including university
