[Mastering Technical Sales: The Sales Engineer's Handbook, Fourth Edition](#) John Care , 2022-04-30 This bestselling book now in its Fourth Edition has become the gold standard for Sales Engineers who engage on the technical side of the sales and buying process and are the people who know how everything works It helps you navigate a complex and ever changing technical sales environment and become an effective bridge builder between the business commercial interests and the technical details that support the sale Written by one of the foremost experts in this field the handbook presents everything you need to improve your skills and increase your value to the sales team Chapters are written in a modular fashion so that you can choose topics most relevant to you at the moment or follow them in order as they build upon each other and give you the complete A to Z on your role Each chapter is short enough so that you can read through it in 10-15 minutes and apply the learning the next day You'll find actionable hints case studies and anecdotes illustrating the topics with lessons learned both positive and negative The book helps you understand the unique role of the Sales Engineer from the broad picture to the nuances of the job develop skills needed to become a valuable consultant to your team and the customer team utilize best practices for creating and completing winning RFPs effectively integrate global practices into your day to day activities increase your ability think on a more strategic level become a trusted advisor to executive customers With this completely updated and expanded edition of *Mastering Technical Sales* in hand you will achieve a better win rate experience higher customer satisfaction hit revenue targets and feel greater job satisfaction Newly added and revised chapters guide you through today's challenges including the impact of the cloud and everything as a service new sales models monthly vs annual revenue commits and the virtualization and automation that is now part of the Sales Engineer's world This book is a must have resource for both new and seasoned Sales Engineers within tech software hardware mechanical and civil engineering vendors along with management and leadership in those organizations and anyone who must present demonstrate or sell hi tech items for a living

Assessment for Experiential Learning Cecilia Ka Yuk Chan, 2022-09-29 Chan's book explores the challenges in assessing experiential learning deepens our understanding and inspires readers to think critically about the purpose of assessment in experiential learning Experiential learning has been studied and proven to be effective for student learning particularly for the development of

holistic competencies i.e. 21st century skills soft skills transferable skills considered essential for individuals to succeed in the increasingly global and technology infused 21st century society Universities around the world are now actively organising experiential learning activities or programmes for students to gain enriching and diversified learning experiences however the assessment of these programmes tends to be limited unclear and contested Assessment plays a central role in education policies and students approach to learning But do educators know how to assess less traditional learning such as service learning entrepreneurship cross discipline or cross cultural projects internships and student exchanges While the current assessment landscape is replete with assessments that measure knowledge of core content areas such as mathematics law languages science and social studies there is a lack of assessments and research that focus on holistic competencies How do we assess students ability to think critically problem solve adapt self manage and collaborate Central to the discussion in this book is the reason students are assessed and how they should be assessed to bring out their best learning outcomes Offering a collection of best assessment practice employed by teachers around the world this volume brings together both theoretical and empirical research that underpins assessment and perceptions of different stakeholders understanding of assessment in experiential learning from students teachers and policymakers The idea of assessment literacy also plays an important role in experiential learning for example reflection is often used in assessing students in experiential learning but how reflection literate are educators are they aware of the ethical dilemmas that arise in assessing students These questions are discussed in detail The volume also introduces a quality assurance programme to recognise student development within experiential learning programmes The book will be particularly informative to academic developers teachers students and community partners who struggle with the development and assessment for experiential learning those who plan to apply for funding in experiential learning and policymakers and senior managements seeking evidence and advice on fine tuning curricular assessment designs and quality assurance The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
