The Relevance of Philosophy Professor Sylvanus Nnoruka, 2022-12-14. The Relevance of Philosophy By Professor Sylvanus Ifeanyichukwu Nnoruka. The Relevance of Philosophy defends the assertion that philosophy is not a theoretical irrelevant enterprise. Philosophy is relevant to life and this book makes use of phenomenological and hermeneutical methods to offer solutions to the social, political and economic problems in Africa, specifically Nigeria. With regard to Nigeria, many are of the opinion that the problem is simply and uniquely that of leadership. Others think it is ethnicity while some opine that it is lack of authentic education method. The articles in the book tackle these and other relevant problems. The authors recommend this book to all Nigerians and indeed every African. The authors believe it is not enough to keep bemoaning the regrettable events of the past which have crippled Africa's development. Rather through critical reasoning they aim to generate unique solutions to Nigeria's problems.

Najibnomics: Transforming Malaysia to a High-Income Nation (UUM Press) Irwan Shah Zainal Abidin, 2016-01-04. This book attempts to understand Najibnomics economic policies advocated by the sixth Prime Minister of Malaysia, Datuk Seri Najib Tun Abdul Razak, since he helmed office on April 3, 2009. Najibnomics refers to a new approach to Malaysia's economic development which is typified by three main characteristics: knowledge, innovation and freedom. It is a set of strategies, programmes and measures meant to transform Malaysia into a high-income and developed nation by the year 2020. This book analyses Najibnomics in action or rather attempts to problematise Najibnomics at the level of its implementation. Through Najibnomics, the Malaysian government strives to keep

the momentum of a sustainable growth trajectory to enhance the well being of the rakyat people and ensure the country gets out of the middle income trap to become a high income and developed economy by the year 2020 Reflections on the Malaysian Economy Post-GE 14 : Issues and Challenges (UUM Press) Irwan Shah Zainal Abidin,2021-10-03 The victory of the Pakatan Harapan PH or the Alliance of Hope on May 9 2018 in the Malaysian 14th General Election GE14 was not just stunning but historic Moreover the second comeback of Tun Dr Mahathir Mohamad as the seventh Prime Minister of Malaysia was indeed impressive The results of the GE14 were clearly against the tide as many political pundits and analysts had predicted a win for the Barisan Nasional BN coalition with differences only in matters of margins Similar to Malaysia s 13th General Election GE13 which was held on May 5 2013 the main issue in the GE14 was also about the economy The rise in cost of living was perhaps the mother of all issues which caused the downfall of the BN government for the first time since independence Other crucial economic issues centered on alleged corruption practices and manifested through the 1Malaysia Development Berhad 1MDB saga As a new federal power for 22 months the PH government had a daunting task not just to address economic issues mentioned above but also the other alleged economic problems which they had highlighted in their election manifesto On top of that the PH government had the responsibility to maintain if not to improve further what the BN government had done to the Malaysian economy in the past of which World Bank economists described as a success story a very strong economy and growing towards a high income Post GE14 what is the state of the Malaysian economy and its direction What are lessons that can be learned from the PH economic management And with the Perikatan Nasional PN government succeeding the federal power in March 2020 in the midst of the Covid 19 pandemic what are the pressing issues and what needs to be done moving forward especially in the context of the economic challenges arising from the pandemic and post Covid 19 era These are some critical questions which this book is trying to address The book essentially argues for the need to give greater focus to economic issues above anything else by envisioning a new national vision and engineering a new wave of economic structural reforms primarily based on insights from the vast Malaysian economic history lessons

Escaping Poverty and Unemployment in Africa Joe U. Umo,2024-07-17 *Escaping Poverty and Unemployment in Africa* A Flagship Strategy calls out unemployment as a major cause of poverty and sees both of them as twins representing two sides of the same bad coin After several years of failures in addressing the twin crises with stand alone policies and programs in Nigeria and other African countries the book proposes an innovative strategy aimed at addressing mass unemployment and mass poverty simultaneously Inspired by the author s field experience as one of the key actors in the successful implementation of the UNDP ILO sponsored Jobs for Africa JFA program in over ten African countries between 1998 and 2001 the book presents an alternative framework from the failed extant approaches for tackling the stubborn crises of unemployment and poverty in the continent The proposed Flagship Strategy is a cocktail of three key policy elements namely 1 putting in place a maximum employment driven macroeconomic economic stability 2 mobilizing and empowering ready to

engage transformational entrepreneurs for leading investment projects programs to ensure success and sustainability and 3 undertaking massive investment for poverty reducing employment IPRE projects in all the key sectors of the economy Given Nigeria s exceptionalism in Africa s poverty profile the application of the Flagship Strategy has been illustrated for over eight key sectors of this nation s economy This presents a model for possible replication across other African countries The empirical validation in the application of the three elements of the Flagship Strategy along with the successful experience of emerging industrializing countries of South Korea Singapore and China etc in achieving massive reductions in poverty and unemployment using the elements of the strategy commends its application to African and other developing countries facing the twin challenges The book is intended to serve generally as an informative read for all who are interested in escaping poverty and unemployment either by themselves or for the people they care about It has also in particular offered fresh strategic insights to scholars and students of development working on African poverty and unemployment challenges It can furthermore easily serve as a policy blueprint manual for policymakers and or politicians with genuine interests in finding quick and sustainable solutions to Africa s daunting and existential poverty and unemployment challenges
