interests **A Reader's Companion to Augustine's Confessions** Kim Paffenroth, Robert Peter Kennedy, 2003-01-01 This book is a tool for teaching and studying the great Christian classic Augustine's Confessions. It is a unique venture in which thirteen different scholars look at each of the thirteen books in the Confessions and interpret their chapters in light of that book and in light of the rest of Augustine's work. The result is that the richness and ambiguity of Augustine's work shines through as well as the richness and ambiguity of different readings of the Confessions. *Augustine* Henry Chadwick, 2001-02-22 By his writings the surviving bulk of which exceeds that of any other ancient author Augustine came to influence not only his contemporaries but also the West since his time. This Very Short Introduction traces the development of Augustine's thought, discussing his reaction to the thinkers before him and themes such as freedom, creation, and the Trinity. ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

**The Culture of Confession from Augustine to Foucault** Chloe Taylor, 2010-05-26 This book is a genealogical study of confession. Drawing on the work of Michel Foucault as well as the history of Western confessional writings from Ancient Greece to contemporary pop culture, this book challenges the transhistorical and commonsense views of confession as an innate impulse resulting in the psychological liberation of the confessing subject. On the contrary, confessional desire is argued to be contingent and constraining, and alternatives to confessional subjectivity are explored. **The Confessions of St. Augustine** St. Augustine, 2019-01-30 Confessions is the name of an autobiographical work consisting of 13 books, what moderns call chapters, by Saint Augustine of Hippo, written in Latin between AD 397 and 400. The work outlines Saint Augustine's sinful youth and his conversion to Christianity. Modern English translations of it are sometimes published under the title The Confessions of Saint Augustine in order to distinguish the book from other books with similar titles. Its original title was Confessions in Thirteen Books, and it was composed to be read out loud, with each book being a complete unit. Confessions is generally considered one of Augustine's most important texts. It is widely seen as the first Western autobiography ever written and was an influential model for Christian writers throughout the Middle Ages. Professor Henry Chadwick wrote that Confessions will always rank among the great masterpieces of Western literature. **The Confessions of St. Augustine** Augustine Hippo, St. Augustine of Hippo, David Clarke, Professor of Control Engineering, Department of Engineering Science, David Clarke, 2018-01-09 This is an autobiography, a work consisting of 13 books by Saint Augustine of Hippo, written in Latin between AD 397 and 400. The work outlines Saint Augustine's sinful youth and his conversion to Christianity. Its original title was Confessions in Thirteen Books, and it was composed to be read out loud, with each book being a complete unit. Confessions is generally considered one of Augustine's most important texts. It is widely seen as the first Western autobiography ever written and was an influential model for Christian writers throughout the Middle Ages.

Professor Henry Chadwick wrote that Confessions will always rank among the great masterpieces of western literature. Written after the legalization of Christianity, Confessions dated from an era where martyrdom was no longer a threat to most Christians as was the case two centuries earlier. Instead, a Christian's struggles were usually internal. Confessions was written between AD 397-398, suggesting self-justification as a possible motivation for the work. With the words "I wish to act in truth, making my confession both in my heart before you and in this book before the many who will read it" in Book X, Chapter 1, Augustine both confesses his sins and glorifies God through humility. In His grace, the two meanings that define confessions in order to reconcile his imperfections, not only to his critics but also to God. Pelagius, a British monk, took exception to Augustine's prayer: "Grant what Thou commandest and command what Thou dost desire." Pelagius recoiled in horror at the idea that a divine gift of grace is necessary to perform what God commands. For Pelagius and his followers, responsibility always implies ability. If man has the moral responsibility to obey the law of God, he must also have the moral ability to do it. Augustine took up the cause of God, clearly demonstrating the fall of man and the inability of man to do good and defended the truth of original sin.

*The Confessions of Saint Augustine*, Saint Augustine, 2008-06

The Confessions of Saint Augustine outlines Augustine's sinful youth and his conversion to Christianity. It is considered the first Western autobiography ever written and was an influential model for Christian writers for the next 1000 years. While it is not a complete autobiography, it does provide the most complete record of any single individual from the 4th and 5th centuries. Augustine writes about how much he regrets having led a sinful and immoral life. He discusses his regrets for following the Manichaean religion and believing in astrology. He writes about Nebridius's role in helping to persuade him that astrology was not only incorrect but evil, and St. Ambrose's role in his conversion to Christianity. He shows intense sorrow for his sexual sins and writes on the importance of sexual morality.

**The Tyranny of the Banal**, David Deane, 2023-06-21

Catholic positions on contested moral issues are rejected by the majority in the secular West and are increasingly rejected by Catholics themselves. In this book, David Deane argues that there are two main reasons for this. First, the dominance of secular approaches deprives Catholic positions of their claim to coherence. Second, the Catholic positions Deane shows have lost contact with the theology on which they were originally based. In response, Deane undertakes a deconstruction of the dominant secular positions and seeks to restore Catholic positions to their theological roots. The result of this is a moral theology reconnected with the Trinitarian understanding of God and God's relationship with the world. Restored to its doctrinal foundations, the moral theology that Deane offers is more coherent, more beautiful, and more convincing than has been found in Catholic moral discourse for centuries.
