

Put it all together

Use the instructions to assemble the automaton.

Use the instructions to assemble the automaton.

But wait... how can a ball climb up stairs?

When you push the ball down the stairs, it will roll down. But when you push it up, it will roll up. This is because of the way the stairs are designed.

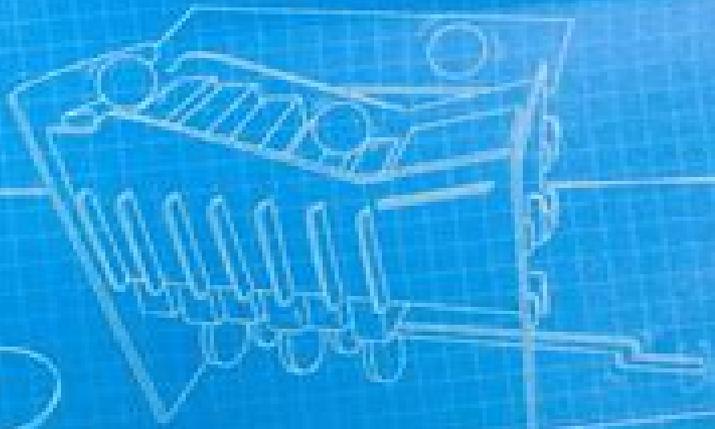

As the automaton runs, the ball doesn't really climb up the stairs. It just stays in the middle of the stairs.

So the automaton, the ball doesn't really climb up the stairs. It just stays in the middle of the stairs.

Being creative with your automaton...
 You can make your automaton do anything you want. You can make it play a song, or it can make a face. You can make it do anything you want.
