I tempi sono cambiati e con essi modi e abitudini di acquisto di diversi tipi di prodotti. Una volta quando volevamo acquistare un capo di abbigliamento un paio di scarpe un profumo o un idoneo abbigliamento per praticare uno sport eravamo soliti recarci in un negozio fisico tradizionale vicino a casa o al massimo in uno situato all'interno di un normale centro commerciale. Quando volevamo risparmiare qualcosa con l'acquisto di un prodotto per uso personale normalmente eravamo costretti ad attendere i periodi dei saldi che si svolgono per tradizione dopo il termine delle festività natalizie durante i primi due mesi dell'anno e intorno alla metà della estate. Normalmente in queste occasioni si può acquistare la merce che ci interessa con uno sconto che in genere non ha mai superato il 30% sul prezzo di listino. Nel corso degli anni 70 e 80 negli Stati Uniti non di rado paesi precursori novità commerciali stata creata una nuova tipologia di esercizio commerciale che in poco tempo ha spopolato a macchia d'olio nel mondo gli outlet. Almeno in origine essi erano quasi esclusivamente punti vendita di aziende. Il loro principio di funzionamento stato da subito vincente per molti consumatori. In questo nuovo tipo di negozio fisico vengono praticati in genere durante tutto l'anno interessanti sconti di vario livello sulla merce esposta rispetto ai negozi normali. Gli sconti in questi negozi normalmente spesso raggiungono e qualche volta possono anche oltrepassare la soglia del 70% per cui sono considerati allettanti per fare acquisti dei prodotti desiderati con un risparmio quasi sempre garantito. Si può quindi affermare che negli outlet più noti e seri per molti clienti il risparmio quasi sempre assicurato. In alcuni casi sulla scia di queste strutture fisiche sono nate le versioni virtuali disponibili online che hanno avuto successo favorite dalla diffusione dell'uso in Italia nel corso degli ultimi dieci anni di dispositivi elettronici moderni per collegarsi ad Internet computer smartphone e tablet. In Italia il fenomeno degli outlet esploso con la nascita di Serravalle Designer Outlet anno 2000 che ancora oggi rappresenta la più grande struttura di questo tipo in Europa e ha fatto da apripista per tutti quelli nati successivamente a livello nazionale ed all'estero. Al giorno d'oggi sono presenti outlet di varie dimensioni e tipologia di merce in tante nostre città. Si può quindi dire che si tratta di un fenomeno di carattere pressoché globale. Due temi legati agli outlet sono i saldi e le vendite promozionali. Fabio Basile medico in pensione svolge da alcuni anni anche l'attività di scrittore indipendente. L'autore ha già scritto e pubblicato molti libri soprattutto tante guide pratiche su svariati argomenti alcune di interesse generale. Questo nuovo libro una guida pratica dedicata agli outlet con una particolare attenzione a quelli più noti presenti in tre importanti regioni italiane Lombardia Piemonte ed Emilia Romagna. Il testo probabilmente uno dei pochi su questo tema include numerose informazioni utili e sarà disponibile anche nei cataloghi dei più noti book shop online.
