**Strategy** Bob de Wit, Ron Meyer, 2004 Bob De Wit and Ron Meyer's innovative and extremely successful strategy text encourages critical and creative strategic thinking. **Strategy, HRM, and Performance** Jaap Paauwe, Elaine Farndale, 2017-11-10 The book expounds the macro level relationship between strategy, HRM and performance, addressing important challenges that have constrained research and practice to date. Adopting a critical perspective, the first challenge is a narrow definition of performance that has been largely driven by a managerialist profit motive with little regard for the human element. This book proposes adopting a more balanced approach towards measuring performance, encompassing both organizational financial performance as well as employee well-being. The second challenge is that HRM has largely been considered a universalistic phenomenon rather than needing to be understood in the context in which an organization is operating. The book puts forward the argument for a more context-centric perspective, culminating in the development of the Contextual Strategic Human Resource Management Framework. The book emphasizes the importance of strategy alignment, context, the role of actors, and a holistic conceptualisation of performance. Embedded in all chapters is a focus on achieving an appropriate balance between options rather than providing a universalistic solution to all human resource management challenges.

International Operations Management Alberto F. De Toni, 2016-04-22 International Operations Management: Lessons in Global Business uses a fascinating selection of case studies researched during the International Operations Management Project sponsored by the European Commission to produce a valuable view of businesses in Western and Eastern traditions. Ranging from China Post and Flextronics International Singapore to Electrolux, Ford, and GlaxoSmithKline, the studies link conceptual and practical approaches in five areas: international operations management, strategy, sourcing, and manufacturing, new product development, logistics, and networked organisations. Throughout, the authors compare the Western and Eastern approaches to business and introduce theory to clarify the comparison and the real consequences of internationalisation. With its balance of theoretical and applied content, this volume, created from an exciting collaboration between universities and schools of management in Europe and China, serves as both a primary and supplementary source for higher-level students and educators and as a worthwhile read for interested practitioners.
