Is Math Real? Eugenia Cheng, 2023-08-15 One of the world's most creative mathematicians offers a brilliant and mesmerizing Popular Science new way to look at math focusing on questions not answers Winner of the Los Angeles Times Book Prize and a New Scientist Best Book of the Year Where do we learn math From rules in a textbook From logic and deduction Not really according to mathematician Eugenia Cheng we learn it from human curiosity most importantly from asking questions This may come as a surprise to those who think that math is about finding the one right answer or those who were told that the dumb question they asked just proved they were bad at math But Cheng shows why people who ask questions like Why does $1 + 1 = 2$ are at the very heart of the search for mathematical truth Is Math Real is a much needed repudiation of the rigid ways we're taught to do math and a celebration of the true curious spirit of the discipline Written with intelligence and passion Is Math Real brings us math as we've never seen it before revealing how profound insights can emerge from seemingly unlikely sources
