

Project Proposal for a Piggery Project

1. Title

Enhancing Livelihoods Through Sustainable Piggery Farming

2. Background

Livestock farming remains a vital sector for economic development and food security in rural and peri-urban communities. Among livestock, piggery has become an increasingly attractive venture due to pigs' rapid growth rate, high reproductive efficiency, adaptability, and the growing demand for pork products. Establishing a piggery project offers a sustainable opportunity for income generation, employment, nutrition improvement, and poverty reduction. This project aims to establish a modern piggery farm to improve household incomes and contribute to local food supply.

3. Problem Statement

Despite the high demand for pork products, many farmers lack the knowledge, skills, and resources needed for efficient pig production. Poor husbandry practices, limited access to quality breeds, high feed costs, and inadequate veterinary services have led to low productivity. This project seeks to address these challenges by introducing a sustainable piggery model that will provide quality breeding stock, promote best practices, and ensure economic viability.

4. Objectives

General Objective:

- To establish and operate a sustainable piggery farm that improves livelihoods through income generation and food production.

Specific Objectives:

- To rear high-quality pig breeds for meat production.
- To train farmers in modern piggery management practices.
- To create employment opportunities for the local community.
- To enhance food security by increasing the supply of pork products.
