

A journey of discovery highlighting procurement efficiencies and identifying new practices

Why CIPS Corporate Certification?

The organisation wanted to ensure its processes were being conducted in compliance with an approved industry standard, as well as identifying any gaps in performance.

It also wanted to address its relationships with suppliers, making sure they were offering value for money and favourable terms.

The results

Polarcus has undergone a procurement health check as a result of CIPS Certification and is now a lot better positioned in terms of understanding processes and methodologies. The assessment has allowed the organisation to identify any capability gaps, introducing new processes to tackle these. Their mission is now to focus on the value-adding areas of the company. The accreditation from an internationally recognised auditor has raised their procurement function's profile, both internally and externally, highlighting their credentials in procurement practices.

The benefits

- **Cost savings:** The Certification is part of a company-wide \$40m saving initiative
- **Upskilling:** Professional development via the accreditation means that all staff are now trained to the same level
- **Profile:** Part of the ambition around the Certification was to move procurement to the forefront of all of the company's activities, which they have now achieved
- **Competitiveness:** Recognition of its high standards of procurement activity has raised the company's standing within the industry.

ABOUT POLARCUS

Polarcus is a marine geophysical company based in Dubai, with a fleet of six owned and two managed vessels. The company is a public listed company on the Norwegian Stock Exchange and employs 500 people.

THE BACKGROUND

The procurement function at Polarcus is central to support operations. The role of the department is to buy material and services for its fleet of vessels, including maritime equipment and services, seismic equipment and services and logistics services globally.

Having moved from a shipbuilding company into a fully operational fleet of vessels, Polarcus quickly became aware of the different set of procurement and supply challenges they were facing and wanted to find a pathway to navigate these.

CIPS Corporate Certification Standard

Globally recognised, CIPS Corporate Certification Standard is the only independent, comprehensive procurement-specific assessment of its kind. Examining your organisation's procurement and supplier management procedures in targeted detail, it highlights where improvements and efficiencies can be made, ensuring that procurement becomes an essential value driver and organisational influence.

- Helps you to deliver savings and value, and drive change
- Supports you to demonstrate your potential and value to senior management
- Ensures effective supply assurance and compliance through robust governance
- Identifies better, more efficient and more cost effective ways of working
- Engages and empowers your team, building morale
- Strengthens your relationships with key stakeholders.

Integrated Fault Seal Analysis S. Ogilvie, S. Dee, R.W. Wilson, W. Bailey, 2020-08-03 Faults commonly trap fluids such as hydrocarbons and water and therefore are of economic significance During hydrocarbon field development smaller faults can provide baffles and or conduits to flow There are relatively simple well established workflows to carry out a fault seal analysis for siliciclastic rocks based primarily on clay content There are however outstanding challenges related to other rock types to calibrating fault seal models with static and dynamic data and to handling uncertainty The variety of studies presented here demonstrate the types of data required and workflows followed in today's environment in order to understand the uncertainties risks and upsides associated with fault related fluid flow These studies span all parts of the hydrocarbon value chain from exploration to production but are also of relevance for other industries such as radioactive waste and CO2 containment

Archer-Daniels-Midland Company V. Illinois Commerce Commission, 1998 *Proceedings Ninth International Workshop on Software Specification and Design*, 1998

HRD Perspectives on Developmental Relationships Rajashi Ghosh, Holly M. Hutchins, 2022-01-04 Developmental relationships constitute interdependent generative connections that promote growth and learning among individuals While studies reporting the impact of developmental relationships on learning performance and career development leaves no doubt about its relevance to the human resource development HRD field we lack an in depth understanding of how developmental relationships apply to the myriad of topics relevant to contemporary HRD research and practice such as social justice diversity and equity leadership development career transitions knowledge sharing organization

development employee engagement organizational learning culture globalization national HRD and technology at work This book presents a comprehensive collection of evidence based studies and conceptual articles that explore how developmental relationships that are cultivated within and outside of the workplace apply to those clusters of topics in HRD Organized around six themes the chapters examine topics such as knowledge management critical perspectives on gender diversity and equity building a learning organization talent development and emotional closeness in the context of virtual workplaces In doing so the book highlight how research on developmental relationships can be the underlying thread connecting the otherwise disconnected varied topical foci of HRD research and practice thus broadening our understanding of the relevance of developmental relationships within the HRD field This volume advances HRD scholarship and will appeal to researchers interested in exploring the nature and benefits of developmental relationships including mentoring and coaching

Small Urbanized Area Transportation Planning Case Study ,1983 Infrastructure Development in Nigeria Michael O. Onolememen,2020-01-22 This book examines the politics and economics of infrastructure development in Nigeria from Independence in 1960 up to 2015 and the role of good governance in promoting the socioeconomic wellbeing of citizens Arguing for the need for transformational leadership in infrastructure development the chapters examine policy issues and survey the various administrative economic and social political reforms that have impacted infrastructure development in Nigeria The author also discusses current national development plans and Vision 20 2020 challenges to infrastructure development including corruption and the future potential of a strong infrastructure network for the economy and citizens Drawing upon his experience within government departments as well as existing models of leadership and governance the author explores the role of infrastructure development in promoting the wellbeing and growth of Nigeria Combining theory with practical examples of good governance this book will be of interest for students and researchers of political science and infrastructure development in Africa
