

The background of the cover features several stylized neurons. Each neuron has a central cell body (soma) and multiple thin, radiating processes (dendrites and axons). The cell bodies are rendered in a light blue or white color, while the processes are thin and translucent. At the ends of many of these processes, there are small, bright yellow or orange glowing spots, which likely represent synapses or active zones. The neurons are scattered across the dark background, with some appearing more prominent than others. The overall aesthetic is scientific and modern.
