

LECTURE 1 - INTRODUCTION

PUBLIC SECTOR ECONOMICS:

- We can apply economics frameworks, concepts, and tools to:
 - The public sector itself - how it is organised, why it is organised that way, criteria and measures of performance, ways of improving performance
 - AND
 - What it is trying to achieve - how it goes about it, why it does it that way

MULTIPLE LAYERS OF GOVERNANCE AND MANAGEMENT:

- System level
- Central government level
- Local government level
- Institutional / company / public sector agency level
- Programme level

"SIZE" OF THE PUBLIC SECTOR:

- The public sector employed around 403,000 people (headcount) in 2018
- ... 18% of New Zealand's total workforce (2,238,000), as measured by Stats NZ's Business Demography data
- The majority (88%) work in the State sector (354,000), ... and
- ... 12% in local govt (49,200)

KEY CONCEPTS:

- Policy - focused on the choice of key outcomes ("what are we trying to achieve")
- Outcome - Ultimate aim of the policy
- Management - about deciding how those outcomes will be achieved - and actually implementing those decisions
- Output - intermediate steps that need to be completed to achieve the outcome

PUBLIC POLICY AND MANAGEMENT:

(About improving the wellbeing of citizens - now and in the future)

- Collective action ... implemented by governments at all levels (central, regional, local) ... funded through taxes, rates, levies, ... to improve the lives of individuals and communities
- Public policy and management: interface between public and private action

Public Sector Economics Jörg Finsinger, 1983-06-30 Educating for Business, Public Service and the Social Sciences
Peter Groenewegen, 2009-09-11 Tertiary economics and business education started early in Australia but was not organised on a faculty basis until the 20th century Commerce and business teaching at Sydney University began in 1906 and from 1920 was taught in the Faculty of Economics together with public administration and accounting Its progress for the next 80 years is chronicled in this comprehensive history of the Faculty of Economics Handbook of Public Economics Martin Feldstein, A.J. Auerbach, 1985-08-01 The first volume of the Handbook of Public Economics contains eight essays on various topics in Public Economics by international leaders in the field It begins with an historical perspective on the growth of the area as a whole and subsequent essays focus on the theory and evidence about the impact of taxation on economic behavior The material presents an up to date survey of the field of public economics by those actually doing work on the frontier of the subject and is written in a manner that renders it useful to the public finance specialist whilst remaining understandable for the student and non specialist

Public Enterprise Economics Dieter Bös, 2014-07-15 Advanced Textbooks in Economics Volume 23 Public Enterprise Economics Theory and Application focuses on economics mathematical economics and econometrics including microeconomics marginal cost pricing taxes and income effects The manuscript takes a look at the essential parts of public sector pricing models normative optimum theory and normative piecemeal theory Discussions focus on welfare improvements with non tight constraints welfare improving increases of public inefficiency conditions for optimal prices and quantities compensating for income effects and conditions for optimal quality The book then ponders on marginal cost pricing Ramsey pricing rate of return regulation and pricing with distributional aims Topics include comparing distributional and allocative pricing prices versus taxes optimum Ramsey policy influence of Ramsey prices on allocation distribution and stabilization and consequences for allocation distribution and stabilization The publication examines bus and underground services in London economic theory and empirical analysis and different approaches towards optimal quality including empirical studies on bus and underground demand organizational and political history and microeconomics of the representative consumer The book is a valuable source of data for researchers interested in public enterprise economics

Fundamentals of Public Budgeting and Finance Aman Khan, 2024-07-22 Budgeting is arguably the single most important function in government Every year governments spend considerable sums on expenditure programs and activities as well as time preparing and executing the budget It is therefore crucial that anyone interested in a career in public administration has a fundamental grasp of these basics This second edition textbook integrates theory and practice of public budgeting into a single volume The first part introduces the background to budgeting focusing especially on taxation government expenditure and revenue The second part focuses on budgeting basics in particular operating and capital budget The final part deals with budgeting tools especially those related to capital rationing budget forecasting and analyzing

government revenue and expenditure Written in a concise and easy to understand manner this book captures the multidimensional nature of public budgeting that both students and practitioners will find useful This second edition has been fully revised and updated as well as expanded to include new material and exercises It will appeal to all those studying public administration financial management and public budgeting

Lecture Notes In State And Local Public Finance (Parts I And II) John Yinger,2020-01-06 This book is based on lectures conducted for two classes at the Maxwell School Syracuse University A Public Finance Seminar for PhD students in public administration and State and Local Public Finance for master s students in public administration Topics covered include the role of voters in a federal system the sorting of different households into different communities the determinants of public service costs the property tax and other sources of local and state revenue fiscal aspects of economic development and intergovernmental aid especially for education The notes for the Ph D class also cover several more advanced topics such as the estimation of education production and cost functions the capitalization of school quality into house values and tax competition among jurisdictions The focus in these notes is on the highly decentralized federal system in the United States but many of the principles and much of the behavioral analysis in the class apply to other countries as well These notes draw on Professor Yinger s extensive teaching experience and publication record in state and local public finance They should prove useful to many teachers scholars and students who find topics in state and local public finance that they wish to pursue
