

# Short Questions with Answers

## Q.1. What is simile?

**Ans.** The word simile comes from Latin word *similes*, which means 'like' or 'likeness'. A simile is an explicit comparison between two different things. It clearly states the similarity existing between two different things using such words as *like, so, as, as-so, such, similarly, as if* etc.

Thus the essential elements of simile are:

1. The comparison is made between two different things.
2. There must be similarity between the things compared.
3. There must be used such words as *like, as, such, etc.*

## Q.2. Give an example of simile.

**Ans.** *I wandered lonely as a cloud.*

This is an example of simile.

Here we observe three things: (a) A comparison is made between two different objects ("I" and "cloud"). (b) The comparison is made explicit with the help of a word of comparison— 'as'; and (c) there is a point of comparison — a common feature enabling two dissimilar things to be compared, and the point of comparison here is a "lonely" state which is common to both "I" (the poet) and the "cloud".

## Q.3. What is metaphor?

**Or,**

**Write a short note on 'Metaphor'. [NU. 2011]**

**Ans.** The word *metaphor* means transference of meanings. A *metaphor* is an implicit comparison between two different things. As it is an implicit comparison, there is no such words as *like, such, as* etc. So, it is a compressed form of simile. If the words like *as, such, like* etc. are used in comparison between two different things, it is simile, and if such words as *like, such, as* etc. are not used it is metaphor. It is to be noted here that the two terms of a comparison in a metaphor are called "tenor" and "vehicle". The *tenor* refers to the subject of the metaphor, and the *vehicle* to the object.
