Development As Freedom:

Development as Freedom Amartya Sen, 1999 The main purpose of development is to spread freedom and its thousand charms to the unfree citizens The author explains how in a world of unprecedented increase in overall opulence millions of people living in the Third World are still unfree Even if they are not technically slaves they are denied elementary freedom and remain imprisoned in one way or another by economic poverty social deprivation political tyranny or cultural authoritarianism

Development as Freedom Janna Miletzki, Nick Broten, 2017-07-05 Amartya Sen uses his 1999 work Development as Freedom to evaluate the processes and outcomes of economic development Having come to the conclusion that development is best summed up as the expansion of freedom Sen examines traditional definitions and understandings of the term He says people tend to think of freedoms as economic the freedom to enter into market exchanges or political the freedom to vote and be an active citizen and tries to understand why the definition has been so narrow hitherto He concludes that an evaluation of true freedom must necessarily include the freedom to access social services such as healthcare sanitation and nutrition just as much as it must acknowledge economic and political freedoms Evaluating the relevance of the current thinking behind development Sen s concludes that the term freedom cannot simply be about income In many ways measuring income does not account for various unfreedoms manmade or natural bars to wellbeing that hinder development Sen s evaluation is all the more powerful for its clarity The freedom centered perspective has a generic similarity to the common concern with quality of life

Development As Freedom Amartya Sen, 2011 By the winner of the 1988 Nobel Prize in Economics an essential and paradigm altering framework for understanding economic development for both rich and poor in the twenty first century Freedom Sen argues is both the end and most efficient means of sustaining economic life and the key to securing the general welfare of the world s entire population Releasing the idea of individual freedom from association with any particular historical intellectual political or religious tradition Sen clearly demonstrates its current applicability and possibilities In the new global economy where despite unprecedented increases in overall opulence the contemporary world denies elementary freedoms to vast numbers perhaps even the majority of people he concludes it is still possible to practically and optimistically retain a sense of social accountability Development as Freedom is essential reading

Development as Freedom Amartya Sen, 2001-01-18 In Development as Freedom Amartya Sen explains how in a world of unprecedented increase in overall opulence millions of people living in the Third World are still unfree Even if they are not technically slaves they are denied elementary freedoms and remain imprisoned in one way or another by economic poverty social deprivation political tyranny or cultural authoritarianism The main purpose of development is to spread freedom and its thousand charms to the unfree citizens Freedom Sen persuasively argues is at once the ultimate goal of social and economic arrangements and the most efficient means of realizing general welfare Social institutions like markets political parties legislatures the judiciary and the media contribute to development by enhancing individual freedom and are in turn

sustained by social values Values institutions development and freedom are all closely interrelated and Sen links them together in an elegant analytical framework By asking What is the relation between our collective economic wealth and our individual ability to live as we would like and by incorporating individual freedom as a social commitment into his analysis Sen allows economics once again as it did in the time of Adam Smith to address the social basis of individual well being and freedom

Sample Book Insights

- 1 There is a connection between opulence and achievements but the link may or may not be strong and depend on many other circumstances The issue is not the ability to live forever on which Maitreyee concentrated but the capability to live a good life while you are alive
- 2 The usefulness of wealth is in the things it allows us to do But this relation is not exclusive or uniform since the impact of wealth on our lives varies with other influences Development must be more concerned with enhancing the lives we lead and the freedoms we enjoy
- 3 There are many ways in which people are deprived of their freedom For example many people in third world countries lack basic opportunities of health care or functional education or gainful employment or economic and social security
- 4 Economic development has many dimensions including economic security Political liberty and civil freedoms are also important on their own and do not have to be justified indirectly in terms of their effects on the economy
