

# Scientific research and Indigenous Knowledge

Community leadership and participation are increasing in scientific research and monitoring across Inuit Nunangat

Inuit Knowledge informs Western science, leading to a more holistic understanding of the environment and culturally important species, including Arctic char, beluga, and seals.

Inuit participation in the publication of information from coastal and marine studies is increasing.

Efforts to bridge different ways of knowing to address ecological and social challenges associated with climate change have increased.

Community technicians use different technologies and tools to gather data on the Arctic environment and species.
