### **INTRODUCTION**

#### **1.1 Introduction**

This chapter explains about the overview of the thesis. It delivers a brief introduction to the study conducted. The topics tackled in this chapter are: problems background, problem statement, objectives of study, importance of study, work scope, and thesis outline.

#### **1.2 Background of the Problem**

It is clearly known that software systems have played a great role to a lot of companies in this era. The business processes have become so much involved with systems of a computer that a break down or interruption of the essential software system can cause loss of huge amount (Fahmi and Choi, 2007).

Nowadays, many companies are working on old systems. . Software maintenance, reverse engineering, quality assessment, components recycle and integration are only a few examples of software engineering activities relating old systems. A fundamental aspect related to all these processes is identification of artifacts used in a system and interpretation of relationships among them (Canfora and Di Penta, 2007).
