Safranski, Jack C. Griffis, 2017-05-20 Shape Memory Polymer Device Design discusses the latest shape memory polymers and the ways they have started to transition out of the academic laboratory and into devices and commercial products Safranski introduces the properties of shape memory polymers and presents design principles for designing and manufacturing providing a guide for the R D engineer scientist and design engineer to add the shape memory effect of polymers into their design toolbox This is the first book to focus on applying basic science knowledge to design practical devices introducing the concept of shape memory polymers the history of their use and the range of current applications It details the specific design principles for

working with shape memory polymers that don't often apply to mechanically inactive materials and products. Material selection is thoroughly discussed because chemical structure and thermo-mechanical properties are intrinsically linked to shape memory performance. Further chapters discuss programming the temporary shape and recovery through a variety of activation methods with real-world examples. Finally, current devices across a variety of markets are highlighted to show the breadth of possible applications. Demystifies shape memory polymers providing a guide to their properties and design principles. Explores a range of current and emerging applications across sectors including biomedical, aerospace, automotive, and consumer goods. Places shape memory polymers in the design toolkit of R D scientists, engineers, and design engineers. Discusses material selection in depth because chemical structure and thermo-mechanical properties are intrinsically linked to shape memory performance.

The guidance note draws on the March 2013 Board papers on small states and the associated Executive Board discussion. The findings of the paper and implications for Fund engagement with small states were presented to small states authorities during the 2013 Annual Meetings, as well as in regional IMF conferences with small states in the Bahamas (September 2013) and Vanuatu (November 2013).
