MTA Microsoft Technology Associate Exam 98-365 Windows Server Administration Fundamentals ExamFOCUS Study Notes and Review Questions 2015 Edition Examreview,2015-02-09 In the early days of certification study preparation the focus was almost exclusively on cramming We had a new medium for content that didn't come with the same restrictions as the more traditional forms We could present material as we felt was necessary and we could do it quicker As the certification industry grew so did the approach to gaining readership In many cases publishers had their focus shifted away from ultimate understanding of what was being covered to producing word for word exact match contents significantly motivated by increasing revenue While it's definitely easier to produce content by going that route we don't believe it's the only way to conquer an exam At the same time we don't believe readers need the 500 page megatext As long as there's a balance we are happy Our mission at ExamREVIEW is to be a part of that balance Our No Frills ExamFOCUS study notes are written to be plain simple and straight forward We don't paginate material to increase page count we break them apart across logical boundaries to improve readability All fancy extra features are removed We provide study notes that are concise and occupying less pages so to save trees And we want you to be up and ready as easy as possible We are the original developer of our NO FRILLS Exam prep products Contents are developed entirely in house basing on our own research efforts We believe that with the right preparation material and the right study approach everyone can clear exams ethically Many of our products include practice review questions Think of these as challenges presented to you so to assess your comprehension of the subject matters
