*Raw and Beyond* Victoria Boutenko,Elaina Love,Chad Sarno,2012-01-10 Three longtime raw foodists present a more balanced way to eat raw with over 100 delicious and nutritious recipes for raw steamed and lightly cooked dishes rich in Omega 3s Victoria Boutenko Elaina Love and Chad Sarno have been leaders in the raw food movement since the 1990s Since then all three have independently arrived at the same conclusion that a totally raw diet is not necessarily the best diet One reason for their shift in thinking is the latest scientific research on the impact of omega essential fatty acids on human health Studies show that if eaten in excess Omega 6s can cause inflammation and obesity A typical raw food diet contains large quantities of nuts and seeds most of which are extremely high in omega 6s and low in Omega 3s Raw foodists are not the only

ones lacking sufficient Omega 3s in their diet Because Omega 3s are easily damaged by heat anyone whose diet is high in processed foods and oils probably has an Omega 3 deficiency Many symptoms of this deficiency can be mistaken for other health problems or nutrient deficiencies so few people realize the cause of their ailments Boutenko s chapters on omegas provide readers more in depth nutritional information One hundred recipes from raw to steamed and lightly cooked dishes from appetizers to desserts offer readers the means to enjoy a more sustainable healthy and energetic lifestyle
