

Top 5 Magic Tricks for Kids

Why not put on a magic show for your family and friends via video chat by using a few objects from your home and following this easy step-by-step guide? Before you start, you need to choose your magic word or phrase. There are some suggestions below if you get stuck.

Let the Magic Begin!

You will need:

- an eraser-tipped pencil
- a coin
- a sheet of A4 paper
- a pair of scissors
- a pack of playing cards

Magic Trick 1: Rubbery Pencil

This is a very simple optical illusion trick that gives the impression that the wooden pencil has magically turned into rubber.

Step 1: Hold the pencil near the top, just below the eraser, between your thumb and your finger.

Step 2: Say the magic word.

Step 3: Begin to move the pencil slowly but steadily up and down so it swings backwards and forwards. As you do this, you will create the optical illusion that the pencil is bendy and made of rubber.

Magic Trick 2: Disappearing Coin

This magic trick is brilliant for developing fine motor skills. It requires sleight of hand (skill and speed in using your hands) so that you, the magician, can deceive your audience into thinking the coin has disappeared when, in fact, it is still in your left hand.

Step 1: Open your hands flat with the palms facing the ceiling and place a coin in your left hand, just above the base of your middle and ring fingers.

Step 2: Now, turn the left hand over while holding the coin with your thumb (making sure the audience do not see you do this) and then pretend to place it into your right hand, while all the time still holding the coin in your left hand between your thumb, middle and ring finger. When pretending to place the coin into your right hand, make it look like you have done so by closing this hand into a fist.
