irrefutable evidence that will cause the scales to fall from your eyes and reveal that the world you thought existed is a myth. The most universally accepted scientific belief today is that the earth is a globe spinning on its axis at a speed of approximately 1 000 miles per hour at the equator while at the same time it is orbiting the sun at approximately 66 600 miles per hour. All of this is happening as the sun in turn is supposed to be hurtling through the Milky Way galaxy at approximately 500 000 miles per hour. The Milky Way galaxy itself is alleged to be racing through space at a speed ranging from 300 000 to 1 340 000 miles per hour. What most people are not told is that the purported spinning orbiting and speeding through space has never been proven. In fact every scientific experiment that has ever been performed to determine the motion of the earth has proven that the earth is stationary. Yet textbooks ignore the scientific proof that contradicts the myth of a spinning and orbiting globe. Christian schools have been hoodwinked into teaching heliocentrism despite the clear teaching in the bible that the earth is not a sphere and does not move. This book reveals the evil forces behind the heliocentric deception and why scientists and the Christian churches have gone along with it.

COVID-19 Conspiracy Theories John Bodner, Wendy Welch, Ian Brodie, 2020-11-09. As the novel coronavirus Covid 19 spread around the world so did theories stories and conspiracy beliefs about it. These theories infected communities from the halls of Congress to Facebook groups spreading quickly in newspapers on various social media and between friends. They spurred debate about the origins treatment options and responses to the virus creating distrust towards public health workers and suspicion of vaccines. This book examines the most popular Covid 19 theories connecting current conspiracy beliefs to long standing fears and urban legends. By examining the vehicles and mechanisms of Covid 19 conspiracy readers can better understand how theories spread and how to respond to misinformation.
