John M. G. Brown

Covert Warrior:

Covert Warrior Warner Smith,1996 Relates experiences in Vietnam as part of a CIA created covert combat unit

Covert Warrior Warner Smith,1998-04 During the Vietnam War the CIA created and trained small teams of elite fighting men reconnaissance and covert combat patrols in the areas where the American military were forbidden to operate These patrols operated in North Vietnam Laos Cambodia Thailand and even mainland China Cryptically they were known as FRAM 16 and their super secret story has never been told until now This account of Smith s Vietnam days is rich in suspense and adventure replete with stories of secret intelligence missions that went unrecorded by reporters a spine tingling story

Publishers Weekly *The Reluctant Warrior* Edmund R. Ciriello,2004-05-06 The shocking true story of Edmund Ciriello an intelligence operative who had a license to kill and the compassion to save lives A compelling memoir about covert live in the shadows as only an insider can tell it From his first mission behind enemy lines during the Korean War to his rescue attempt of two kidnapped girls held in Saudi Arabia during Desert Storm Ciriello takes us inside his mysterious world His many years in Chicago and Hollywood are an exciting and hilarious journey through the real world of private investigations An explosive book relevant to the crises facing the world and the real reasons behind them *Private Security Companies during the Iraq War* Scott Fitzsimmons,2015-07-16 This book explores the use of deadly force by private security companies during the Iraq War The work focuses on and compares the activities of the US companies Blackwater and Dyncorp Despite sharing several important characteristics such as working for the same client the US State Department during the same time period the employees of Blackwater fired their weapons far more often and killed and seriously injured far more people in Iraq than their counterparts in DynCorp In order to explain this disparity the book undertakes the most comprehensive analysis ever attempted on the use of violence by the employees of these firms Based on extensive empirical research it offers a credible explanation for this difference Blackwater maintained a relatively bellicose military culture that placed strong emphasis on norms encouraging its personnel to exercise personal initiative proactive use of force and an exclusive approach to security which together motivated its personnel to use violence quite freely against anyone they suspected of posing a threat

Specifically Blackwater s military culture motivated its personnel to fire upon suspected threats more quickly at greater distances and with a greater quantity of bullets and to more readily abandon the people they shot at when compared to DynCorp s personnel who maintained a military culture that encouraged far less violent behaviour Utilizing the Private Security Company Violent Incident Dataset PSCVID created by the author in 2012 the book draws upon data on hundreds of violent incidents involving private security personnel in Iraq to identify trends in the behaviour exhibited by the employees of different firms Based on this rich and original empirical data the book provides the definitive study of contemporary private security personnel in the Iraq War This book will be of much interest to students of the Iraq War Private Security Companies Military Studies War and Conflict Studies and IR in general **The United States of Fear** Tom Engelhardt,2011 In 2008

when the U S National Intelligence Council issued its latest report meant for the administration of newly elected President Barack Obama it predicted that the planet s sole superpower would suffer a modest decline and a soft landing fifteen years hence In his new book *The United States of Fear* Tom Engelhardt makes clear that Americans should don their crash helmets and buckle their seat belts because the United States is on the path to a major decline at a startling speed Engelhardt offers a savage anatomy of how successive administrations in Washington took the Soviet path pouring American treasure into the military war and national security and so helped drive their country off the nearest cliff This is the startling tale of how fear was profitably shot into the national bloodstream how the country gripped by terror fantasies was locked down and how a brain dead Washington elite fiddled and profited while America quietly burned Think of it as the story of how the Cold War really ended with the triumphalist sole superpower of 1991 heading slowly for the same exit through which the Soviet Union left the stage twenty years earlier

Cold War Navy SEAL James M. Hawes, Mary Ann Koenig, 2018-04-03 For the first time a Navy SEAL tells the story of the US s clandestine operations in North Vietnam and the Congo during the Cold War Sometime in 1965 James Hawes landed in the Congo with cash stuffed in his socks morphine in his bag and a basic understanding of his mission recruit a mercenary navy and suppress the Soviet and Chinese backed rebels engaged in guerilla movements against a pro Western government He knew the United States must preserve deniability so he would be abandoned in any life threatening situation he did not know that Che Guevara attempting to export his revolution a few miles away Cold War Navy SEAL gives unprecedented insight into a clandestine chapter in US history through the experiences of Hawes a distinguished Navy frogman and later a CIA contractor His journey began as an officer in the newly formed SEAL Team 2 which then led him to Vietnam in 1964 to train hit and run boat teams who ran clandestine raids into North Vietnam Those raids directly instigated the Gulf of Tonkin Incident The CIA tapped Hawes to deploy to the Congo where he would be tasked with creating and leading a paramilitary navy on Lake Tanganyika to disrupt guerilla action in the country According to the US government he did not and could not exist he was on his own 1400 miles from his closest allies with only periodic letters via air drop as communication Hawes recalls recruiting and managing some of the most dangerous mercenaries in Africa battling rebels with a crew of anti Castro Cuban exiles and learning what the rest of the intelligence world was dying to know the location of Che Guevara In vivid detail that rivals any action movie Hawes describes how he and his team discovered Guevara leading the communist rebels on the other side and eventually forced him from the country accomplishing a seemingly impossible mission Complete with never before seen photographs and interviews with fellow operatives in the Congo *Cold War Navy SEAL* is an unblinking look at a portion of Cold War history never before told

The Shadow Warriors of Nakano Stephen C. Mercado, 2002 In the history of the twentieth century the role of the military intelligence services in the competition among nations is still murky Among the world s foremost intelligence services those of Imperial Japan remain the least known Few stories are as compelling as those surrounding the Japanese Army s Nakano

School From 1938 to 1945 the Nakano School trained more than 2 000 men in intelligence gathering propaganda and irregular warfare Working in the shadows these dedicated warriors executed a range of missions from gathering intelligence in Latin America to leading commando raids against American lines in Papua New Guinea in the Philippines and on Okinawa They played major roles in operations to subvert British rule in India and they organized Japanese civilians into guerrilla units that would have made the invasion of Japan a bloodbath One graduate used his Nakano commando training to elude U S and Philippine military patrols until emerging from the jungle nearly thirty years after the war s end In the decades after World War II graduates of the school worked to obtain from the United States and Russia the release of imprisoned war criminals and the recovery of lost territory including Okinawa Based on archival research and the memoirs of Japanese veterans *The Shadow Warriors of Nakano* shines a much needed light into the shadows of World War II and postwar Japanese affairs

Icons of Democracy Bruce Miroff,2000 In a blend of history biography political science and political theory he offers examples of the finest democratic leadership as well as cautionary tales of prominent leaders whose styles were essentially aristocratic

War On Drugs Alfred W. McCoy,2021-11-28 Since George Bush declared his war on drugs in 1989 cocaine addiction in America has increased 15% and narcotics have emerged as major commodities from the Third World Focusing on US narcotics policy Latin America s cocaine traffic and Asia s heroin trade the essays in this book offer evidence indicating that the war is not working

The Cambodian Campaign John M. Shaw,2005 When American and South Vietnamese forces led by General Creighton Abrams launched an attack into neutral Cambodia in 1970 the invasion ignited a firestorm of violent antiwar protests throughout the United States dealing yet another blow to Nixon s troubled presidency But as John Shaw shows the campaign also proved to be a major military success Most histories of the Vietnam War either give the Cambodian invasion short shrift or merely criticize it for its political fallout thus neglecting one of the campaign s key dimensions Approaching the subject from a distinctly military perspective Shaw shows how this carefully planned and executed offensive provided essential support for Nixon s decent interval and peace with honor strategies by eliminating North Vietnamese sanctuaries and supply bases located less than a hundred miles from Saigon and by pushing Communist troops off the Vietnamese border Despite the political cloud under which the operation was conducted Shaw argues that it was not only the best of available choices but one of the most successful operations of the entire war sustaining light casualties while protecting American troop withdrawal and buying time for Nixon s pacification and Vietnamization strategies He also shows how the United States took full advantage of fortuitous events such as the overthrow of Cambodia s Prince Sihanouk the redeployment of North Vietnamese forces and the late arrival of spring monsoons Although critics of the operation have protested that the North Vietnamese never did attack out of Cambodia Shaw makes a persuasive case that the near border threat was very real and imminent In the end he contends the campaign effectively precluded any major North Vietnamese military operations for over a year Based on exhaustive research and a deep analysis

of the invasion s objectives planning organization and operations Shaw s shrewd study encourages a newfound respect for one of America s genuine military successes during the war **The Politics of Heroin** Alfred W. McCoy,2003 Introduction A history of heroin Sicily home of the Mafia Marseille America s heroin laboratory Opium for the natives Cold War opium boom South Vietnam s heroin traffic Hong Kong Asia s heroin laboratory The Golden Triangle War on drugs The CIA s covert wars The Contemporary Review ,1901 *The romance and tragedy of pioneer life* Augustus Lynch Mason,1883

Taking the stand Oliver North,United States. Congress. Senate. Select Committee on Secret Military Assistance to Iran and the Nicaraguan Opposition,1987 Includes complete testimony of Lieutenant Colonel Oliver L North before the Select Committee of the House and Senate on July 7 14 1987 **Foch the Man** Clara Elizabeth Laughlin,1919 **Legends of Mexico** George Lippard,1847 *Social Work with Groups* Charles Zastrow,2001 Zastrow s book is a rich resource and hands on guide that students like to keep for future reference This ten part book has each chapter module broken down into a particular format First the goal of the chapter is stated then the chapter provides the theoretical material for the class and then exercises are given to illustrate the key concepts in the chapter Students are encouraged to break into groups and lead the class in the exercises the class then becomes a lab for students to learn how to work in and lead all kinds of groups

Covert Warrior Introduction

In today's digital age, the availability of Covert Warrior books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Covert Warrior books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Covert Warrior books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Covert Warrior versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Covert Warrior books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Covert Warrior books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Covert Warrior books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many

universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Covert Warrior books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Covert Warrior books and manuals for download and embark on your journey of knowledge?
