

GENERAL PROCEDURES IN PROCESS COSTING SYSTEM

STEP 1 – Calculate the total units to account for

Beginning Inventory in units	X
Add: Units started or transferred in	X
TOTAL UNITS TO ACCOUNT FOR (TUTAF)	<u>X</u>

Accounted for as follows:

Units completed and transferred to next department	X
Ending inventory in units	X
Normal loss	X
Abnormal loss	X
TOTAL UNITS AS ACCOUNTED FOR (TUAF)	<u>X</u>

STEP 2 – Calculate equivalent units of production (EUP)

FIFO

	Materials	Conversion
WIP, Beg (BI units x % work to be done)	X	X
Started and completed	X	X
WIP, End (EI units x % work done)	X	X
EQUIVALENT UNITS OF PRODUCTION	<u>X</u>	<u>X</u>

WEIGHTED AVERAGE

	Materials	Conversion
Finished and transferred	X	X
WIP, End (EI units x % work done)	X	X
EQUIVALENT UNITS OF PRODUCTION	<u>X</u>	<u>X</u>

STEP 3 – Calculate the total cost to account

Beginning Inventory Costs	X
Add: Cost Added (DM, DL, OH)	X
Add: Transferred-In Costs	X
TOTAL COST TO ACCOUNT FOR (TCTAF)	<u>X</u>

STEP 4 – Compute the cost per EUP

FIFO

Unit cost =	$\frac{\text{Current Cost}}{\text{EUP (per Cost element)}}$
-------------	---

WEIGHTED AVERAGE

Unit cost =	$\frac{\text{Beginning Cost} + \text{Current Cost}}{\text{EUP (per Cost element)}}$
-------------	---

STEP 5 – Assign costs to inventories

FIFO

Finished and transferred:	
Beginning Inventory Costs	X
Add: Cost to complete the units	X
Add: Cost of units started & completed	X
Total cost of Finished and transferred	<u>X</u>

Process Costing Problems And Solutions

Vinod Kumar (Educator)

Process Costing Problems And Solutions:

A Textbook of Cost and Management Accounting (12/e) M N Arora, A Textbook of Cost and Management Accounting provides the students with thorough grounding in cost concepts cost behaviour and methods and techniques of cost and management accounting with an understanding of the uses and limitations of cost and financial data for managerial operations The text of the subject matter has been presented in a student friendly simple and intelligible manner Every discussion involving conceptual complexity is immediately illustrated by a numerical example In addition the book contains a liberal sprinkling of charts and diagrams so as to make the subject easily understandable and highlight its near points The subject matter has been organized on First things first basis for its logical presentation that sustains interest The approach of the book is examination oriented Thus a good number of problems and solutions have been included in its chapters Theoretical and numerical questions have been mostly selected from various examinations Objective type questions have been given to serve as self test by students This is an ideal book for self study

A Textbook of Cost and Management Accounting, 11th Edition Arora M.N., A Textbook of Cost and Management Accounting provides the students with thorough grounding in cost concepts cost behaviour and methods and techniques of cost and management accounting with an understanding of the uses and limitations of cost and financial data for managerial operations The text of the subject matter has been presented in a student friendly simple and intelligible manner Every discussion involving conceptual complexity is immediately illustrated by a numerical example In addition the book contains a liberal sprinkling of charts and diagrams so as to make the subject easily understandable and highlight its finer points The subject matter has been organized on first things first basis for its logical presentation that sustains interest The approach of the book is examination oriented Thus a good number of problems and solutions have been included in its chapters Theoretical and numerical questions have been mostly selected from various examinations Objective type questions have been given to serve as self test by students This is an ideal book for self study An all inclusive ideal book for self study both for the students of Cost and Management Accounting as well as working professionals

A Textbook of Cost and Management Accounting, 10th Edition Arora M.N., 2012 A Textbook of Cost and Management Accounting provides the students with thorough grounding in cost concepts cost behaviour and methods and techniques of cost and management accounting with an understanding of the uses and limitations of cost and financial data for managerial operations The text of the subject matter has been presented in a student friendly simple and intelligible manner Every discussion involving conceptual complexity is immediately illustrated by a numerical example In addition the book contains a liberal sprinkling of charts and diagrams so as to make the subject easily understandable and highlight its finer points The subject matter has been organized on first things first basis for its logical presentation that sustains interest The approach of the book is examination oriented Thus a good number of problems and solutions have been included in its chapters Theoretical and numerical questions have been mostly selected from various

examinations Objective type questions have been given to serve as self test by students This is an ideal book for self study New to this edition All chapters thoroughly revised Latest information on Cost Accounting Standards CAS issued by the Institute of Cost Accountants of India ICAI Chapter on Miscellaneous Topics made more contemporary by including some new sub topics and thus re named Advanced Cost Management Techniques Revision and augmentation of practical problems

Solutions to Problems in Elementary Cost Accounting Charles F. Schlatter,1928 *B.com Cost accounting Notes* Vinod Kumar (Educator),2020-11-05 Buy our new B Com cost accounting notes It is the hardwork of 10 years student teaching and simplified all complex topics of cost accounting and it is my promise it will help you to understand fastly and enable to solve all practical problems of cost accounting With this you will get success in the field of accounting *C.P.A. Problems and Solutions* William B. Castenholz,1926 [Cost Accounting eBook](#) Vinod Kumar (Educator),2015-11-17 This Cost Accounting eBook is designed to help commerce students teachers and accounting professionals to understand cost accounting concepts easily This book can be referred for all academic course where cost accounting is taught [CPA Problems and Approaches to Solutions: Problems and approaches](#) Charles T. Horngren,J. Arthur Leer,1969 [Industrial Accounting for Executives](#) John Robert Bangs,1930 *Process Cost Accounts* Henry Stanley Garry,1908 **Accounting Course** Vinod Kumar (Educator),2018-09-26 This Full Accounting Course book is designed to help you for creating you as accounting professional With this ebook you can learn basics of journal entries made easy Financial Accounting Cost Accounting Management Accounting Corporate Accounting Balance Sheet MADE Easy Accounting software made easy Financial management GST MADE Easy and Accountant Self Help eBooks all together Whether you are doing the accounting work in industry or service sector this book will save your time for doing any accounting professional work This ebook focuses not only tools for beginners but also on the tools in the Pro Premier and Enterprise versions **Solutions to Problems and Answers to Questions in Principles of Accounting** Harry Anson Finney,1923 **Problem Solving for Process Operators and Specialists** Joseph M. Bonem,2011-04-18 This book provides methods to train process operators to solve challenging problems The book is split into two parts The first part consists of two parts first developing a daily monitoring system and second providing a structured 5 step problem solving approach that combines cause and effect problem solving thinking with the formulation of theoretically correct hypotheses The 5 step approach emphasizes the classical problem solving approach defining the sequence of events with the addition of the steps of formulating a theoretically correct working hypothesis providing a means to test the hypothesis and providing a foolproof means to eliminate the problem The initial part of the book focuses on defining the problem that must be solved and obtaining the location time and quantity based specifications of the problem This part of the book also presents techniques to find and define problems at an early point before they progress to the critical level The second part of the book deals with the utilization of fundamental chemical engineering skills to develop a technically correct working hypothesis that is the key to successful problem solving The primary emphasis is on

simple pragmatic calculation techniques that are theoretically correct It is believed that any operator can perform these calculations if he is provided the correct prototype Throughout the book the theory behind each pragmatic calculation technique is explained in understandable terms prior to presenting the author s approach These techniques have been developed by the author in 50 years of industrial experience The book includes many sample problems and examples of real world problem solving Using these techniques theoretically correct working hypotheses can be developed in an expedient fashion

The Theory of Problem-Solution Dualities and Polarities Kofi Kissi Dompere,2022-04-25 This book is concerned with the development of the understanding of the relational structures of information knowledge decision choice processes of problems and solutions in the theory and practice regarding diversity and unity principles of knowing science non science and information knowledge systems through dualistic polar conditions of variety existence and nonexistence It is a continuation of the sequence of my epistemic works on the theories on fuzzy rationality info statics info dynamics entropy and their relational connectivity to information language knowing knowledge cognitive practices relative to variety identification problem solution dualities variety transformation problem solution dualities and variety certainty uncertainty principle in all areas of knowing and human actions regarding general social transformations It is also an economic theoretic approach in understanding the diversity and unity of knowing and science through neuro decision choice actions over the space of problem solution dualities and polarities The problem solution dualities are argued to connect all areas of knowing including science and non science social science and non social science into unity with diversities under neuro decision choice actions to support human existence and nonexistence over the space of static dynamic dualities The concepts of diversity and unity are defined and explicated to connect to the tactics and strategies of decision choice actions over the space of problem solution dualities The concepts of problem and solution are defined and explicated not in the space of absoluteness but rather in the space of relativity based on real cost benefit conditions which are shown to be connected to the general parent offspring infinite process where every solution generates new problem s which then generates a search for new solutions within the space of minimum maximum dualities in the decision choice space under the principle of non satiation over the space of preference non preference dualities with analytical tools drawn from the fuzzy paradigm of thought which connects the conditions of the principle of opposites to the conditions of neuro decision choice actions in the zone of variety identifications and transformations The Monograph would be useful to all areas of Research Learning and Teaching at Advanced Stages of Knowing and Knowledge Production
