1. Based on the grid below, identify each function below as being a linear or quadratic function. Explain.

2. Identify each of the functions below that are **quadratic** (blue) and those that are **linear** (orange). Write your answer next to the function by looking at the function's graph. **Note:** not all graphs are quadratic.

This is being presented with the grid for the same situation.

3. Graph each of the functions part 2 on the grid below using the grid. Use the grid to help you graph. Write a or 2 next to it. If a function is neither, write **neither** next to it.

Remember, the functions that are **quadratic** are blue and the functions that are **linear** are orange.
