From the Dust of the Earth Matthew J. Ramage, 2022-05-06 In this book the author's fourth dedicated to applying Joseph Ratzinger Benedict XVI's wisdom to pressing theological difficulties Matthew Ramage attempts to square advances in the field of evolutionary biology with the Bible as interpreted through the teaching of the Catholic Church Distinguishing between evolutionary theory properly speaking and materialist philosophy Ramage's work both addresses the challenge of evolutionary science to Catholic teaching on human origins and argues that discoveries in evolutionary biology yield precious insight into the mystery of God's saving plan in Christ applying Ratzinger's principles to such issues as the meaning of man's special creation the relationship between sin and death and the implications of evolution for eschatology

Mayo, 2022-09-08 Cryptic species are organisms which look identical but which represent distinct evolutionary lineages They are an emerging trend in organismal biology across all groups from flatworms insects amphibians primates to vascular plants This book critically evaluates the phenomenon of cryptic species and demonstrates how they can play a valuable role in improving our understanding of evolution in particular of morphological stasis It also explores how the recognition of cryptic species is intrinsically linked to the so called species problem the lack of a unifying species concept in biology and suggests alternative approaches Bringing together a range of perspectives from practicing taxonomists the book presents case studies of cryptic species across a range of animal and plant groups It will be an invaluable text for all biologists interested in species and their delimitation definition and purpose including undergraduate and graduate students and researchers
