

Image Classification Using Content Based Image Retrieval

G. Ranganathan, Robert Bestak, Ram Palanisamy, Álvaro Rocha

Image Classification Using Content Based Image Retrieval:

Semantic and Interactive Content-based Image Retrieval Björn Barz, 2020-12-23 Content based Image Retrieval CBIR ist ein Verfahren zum Auffinden von Bildern in großen Datenbanken wie z.B. dem Internet anhand ihres Inhalts. Ausgehend von einem vom Nutzer bereitgestellten Anfragebild gibt das System eine sortierte Liste ähnlicher Bilder zurück. Der Großteil moderner CBIR-Systeme vergleicht Bilder ausschließlich anhand ihrer visuellen Ähnlichkeit, d.h. dem Vorhandensein ähnlicher Texturen, Farbkompositionen etc. Jedoch impliziert visuelle Ähnlichkeit nicht zwangsläufig auch semantische Ähnlichkeit. Zum Beispiel können Bilder von Schmetterlingen und Raupen als ähnlich betrachtet werden, weil sich die Raupe irgendwann in einen Schmetterling verwandelt. Optisch haben sie jedoch nicht viel gemeinsam. Die vorliegende Arbeit stellt eine Methode vor, welche solches menschliches Vorwissen über die Semantik der Welt in Deep Learning Verfahren integriert. Als Quelle für dieses Wissen dienen Taxonomien, die für eine Vielzahl von Domänen verfügbar sind und hierarchische Beziehungen zwischen Konzepten kodieren, z.B. ein Pudel ist ein Hund ist ein Tier etc. Diese hierarchiebasierten semantischen Bildmerkmale verbessern die semantische Konsistenz der CBIR-Ergebnisse im Vergleich zu herkömmlichen Repräsentationen und Merkmalen erheblich. Darüber hinaus werden drei verschiedene Mechanismen für interaktives Image Retrieval präsentiert, welche die den Anfragebildern inhärente semantische Ambiguität durch Einbezug von Benutzerfeedback auflösen. Eine der vorgeschlagenen Methoden reduziert das erforderliche Feedback mithilfe von Clustering auf einen einzigen Klick während eine andere den Nutzer kontinuierlich involviert, indem das System aktiv nach Feedback zu denjenigen Bildern fragt, von denen der größte Erkenntnisgewinn bezogen auf das Relevanzmodell erwartet wird. Die dritte Methode ermöglicht dem Benutzer die Auswahl besonders interessanter Bildbereiche zur Fokussierung der Ergebnisse. Diese Techniken liefern bereits nach wenigen Feedbackrunden deutlich relevantere Ergebnisse, was die Gesamtmenge der abgerufenen Bilder reduziert, die der Benutzer überprüfen muss, um relevante Bilder zu finden. Content based image retrieval (CBIR) aims for finding images in large databases such as the internet based on their content. Given an exemplary query image provided by the user, the retrieval system provides a ranked list of similar images. Most contemporary CBIR systems compare images solely by means of their visual similarity, i.e. the occurrence of similar textures and the composition of colors. However, visual similarity does not necessarily coincide with semantic similarity. For example, images of butterflies and caterpillars can be considered as similar because the caterpillar turns into a butterfly at some point in time. Visually, however, they do not have much in common. In this work, we propose to integrate such human prior knowledge about the semantics of the world into deep learning techniques. Class hierarchies serve as a source for this knowledge, which are readily available for a plethora of domains and encode relationships, e.g. a poodle is a dog is an animal etc. Our hierarchy-based semantic embeddings improve the semantic consistency of CBIR results substantially compared to conventional image representations and features. We furthermore present three different mechanisms for interactive image retrieval by incorporating user feedback to resolve the inherent

semantic ambiguity present in the query image One of the proposed methods reduces the required user feedback to a single click using clustering while another keeps the human in the loop by actively asking for feedback regarding those images which are expected to improve the relevance model the most The third method allows the user to select particularly interesting regions in images These techniques yield more relevant results after a few rounds of feedback which reduces the total amount of retrieved images the user needs to inspect to find relevant ones

Content-based Image Retrieval Using Deep Learning Anshuman Vikram Singh,2015 A content based image retrieval CBIR system works on the low level visual features of a user input query image which makes it difficult for the users to formulate the query and also does not give satisfactory retrieval results In the past image annotation was proposed as the best possible system for CBIR which works on the principle of automatically assigning keywords to images that help image retrieval users to query images based on these keywords Image annotation is often regarded as the problem of image classification where images are represented by some low level features an teh mapping between low level features and high level concepts class labels is done by supervised learning algorithms In a CBIR system learning of effective feature representations and similarity measures is very important for the retrieval performance Semantic gap has been the key challenge for this problem A semantic gap exists between low level image pixels captured by machines and the high level semantics perceived by humans The recent successes of deep learning techniques especially Convolutional Neural Networks CNN in solving computer vision applications has inspired me to work on this thesis so as to solve teh problem of CBIR using a dataset of annotated images

Abstract

From

Content-based to Semantic Image Retrieval Aamer Saleh Sahel Mohamed,2010 Digital image archiving urgently requires advanced techniques for more efficient storage and retrieval methods because of the increasing amount of digital Although JPEG supply systems to compress image data efficiently the problems of how to organize the image database structure for efficient indexing and retrieval how to index and retrieve image data from DCT compressed domain and how to interpret image data semantically are major obstacles for further development of digital image database system In content based image image analysis is the primary step to extract useful information from image databases The difficulty in content based image retrieval is how to summarize the low level features into high level or semantic descriptors to facilitate the retrieval procedure Such a shift toward a semantic visual data learning or detection of semantic objects generates an urgent need to link the low level features with semantic understanding of the observed visual information To solve such a semantic gap problem an efficient way is to develop a number of classifiers to identify the presence of semantic image components that can be connected to semantic descriptors Among various semantic objects the human face is a very important example which is usually also the most significant element in many images and photos The presence of faces can usually be correlated to specific scenes with semantic inference according to a given ontology Therefore face detection can be an efficient tool to annotate images for semantic descriptors In this thesis a paradigm to process analyze and interpret digital images is

proposed In order to speed up access to desired images after accessing image data image features are presented for analysis This analysis gives not only a structure for content based image retrieval but also the basic units ii for high level semantic image interpretation Finally images are interpreted and classified into some semantic categories by semantic object detection categorization algorithm

Transactions on Computational Science XXV Marina L. Gavrilova, C.J. Kenneth Tan, Khalid Saeed, Nabendu Chaki, Soharab Hossain Shaikh, 2015-04-27 The LNCS journal Transactions on Computational Science reflects recent developments in the field of Computational Science conceiving the field not as a mere ancillary science but rather as an innovative approach supporting many other scientific disciplines The journal focuses on original high quality research in the realm of computational science in parallel and distributed environments encompassing the facilitating theoretical foundations and the applications of large scale computations and massive data processing It addresses researchers and practitioners in areas ranging from aerospace to biochemistry from electronics to geosciences from mathematics to software architecture presenting verifiable computational methods findings and solutions and enabling industrial users to apply techniques of leading edge large scale high performance computational methods This the 25th issue of the Transactions on Computational Science journal consists of two parts Part I which is guest edited by Khalid Saeed Nabendu Chaki and Soharab Hossain Shaikh covers the areas of computer vision image processing for biometric security information fusion and Kinect activity recognition The papers in Part II focus on optimization through novel methods for data fusion clustering in WSN fault tolerance probability weight assignment and risk analysis

Pervasive Computing and Social Networking G. Ranganathan, Robert Bestak, Ram Palanisamy, Álvaro Rocha, 2022-01-01 The book features original papers from International Conference on Pervasive Computing and Social Networking ICPCSN 2021 organized by NSIT Salem India during 19 20 march 2021 It covers research works on conceptual constructive empirical theoretical and practical implementations of pervasive computing and social networking methods for developing more novel ideas and innovations in the growing field of information and communication technologies

Intelligent Computing and Networking Valentina Emilia Balas, Vijay Bhaskar Semwal, Anand Khandare, 2022-02-08 This book gathers high quality peer reviewed research papers presented at the International Conference on Intelligent Computing and Networking IC ICN 2021 organized by the Computer Department Thakur College of Engineering and Technology in Mumbai Maharashtra India on February 26 27 2021 The book includes innovative and novel papers in the areas of intelligent computing artificial intelligence machine learning deep learning fuzzy logic natural language processing human machine interaction big data mining data science and mining applications of intelligent systems in health care finance agriculture and manufacturing high performance computing computer networking sensor and wireless networks Internet of Things IoT software defined networks cryptography mobile computing digital forensics and blockchain technology

Deep Learning for Biomedical Data Analysis Mourad Elloumi, 2021-07-13 This book is the first overview on Deep Learning DL for biomedical data analysis It surveys the most

recent techniques and approaches in this field with both a broad coverage and enough depth to be of practical use to working professionals This book offers enough fundamental and technical information on these techniques approaches and the related problems without overcrowding the reader s head It presents the results of the latest investigations in the field of DL for biomedical data analysis The techniques and approaches presented in this book deal with the most important and or the newest topics encountered in this field They combine fundamental theory of Artificial Intelligence AI Machine Learning ML and DL with practical applications in Biology and Medicine Certainly the list of topics covered in this book is not exhaustive but these topics will shed light on the implications of the presented techniques and approaches on other topics in biomedical data analysis The book finds a balance between theoretical and practical coverage of a wide range of issues in the field of biomedical data analysis thanks to DL The few published books on DL for biomedical data analysis either focus on specific topics or lack technical depth The chapters presented in this book were selected for quality and relevance The book also presents experiments that provide qualitative and quantitative overviews in the field of biomedical data analysis The reader will require some familiarity with AI ML and DL and will learn about techniques and approaches that deal with the most important and or the newest topics encountered in the field of DL for biomedical data analysis He she will discover both the fundamentals behind DL techniques and approaches and their applications on biomedical data This book can also serve as a reference book for graduate courses in Bioinformatics AI ML and DL The book aims not only at professional researchers and practitioners but also graduate students senior undergraduate students and young researchers This book will certainly show the way to new techniques and approaches to make new discoveries

Diabetes and Fundus OCT Ayman S. El-Baz, Jasjit Suri, 2020-04-03 Diabetes and Fundus OCT brings together a stellar cast of authors who review the computer aided diagnostic CAD systems developed to diagnose non proliferative diabetic retinopathy in an automated fashion using Fundus and OCTA images Academic researchers bioengineers new investigators and students interested in diabetes and retinopathy need an authoritative reference to bring this multidisciplinary field together to help reduce the amount of time spent on source searching and instead focus on actual research and the clinical application This reference depicts the current clinical understanding of diabetic retinopathy along with the many scientific advances in understanding this condition As the role of optical coherence tomography OCT in the assessment and management of diabetic retinopathy has become significant in understanding the vireo retinal relationships and the internal architecture of the retina this information is more critical than ever

Twin Support Vector Machines Jayadeva, Reshma Khemchandani, Suresh Chandra, 2016-10-12 This book provides a systematic and focused study of the various aspects of twin support vector machines TWSVM and related developments for classification and regression In addition to presenting most of the basic models of TWSVM and twin support vector regression TWSVR available in the literature it also discusses the important and challenging applications of this new machine learning methodology A chapter on Additional Topics has been included to discuss kernel optimization and support tensor

machine topics which are comparatively new but have great potential in applications It is primarily written for graduate students and researchers in the area of machine learning and related topics in computer science mathematics electrical engineering management science and finance

Image Classification Using Content Based Image Retrieval Introduction

In today's digital age, the availability of Image Classification Using Content Based Image Retrieval books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Image Classification Using Content Based Image Retrieval books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Image Classification Using Content Based Image Retrieval books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Image Classification Using Content Based Image Retrieval versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Image Classification Using Content Based Image Retrieval books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Image Classification Using Content Based Image Retrieval books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Image Classification Using Content Based Image Retrieval books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both

public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Image Classification Using Content Based Image Retrieval books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Image Classification Using Content Based Image Retrieval books and manuals for download and embark on your journey of knowledge?

FAQs About Image Classification Using Content Based Image Retrieval Books

1. Where can I buy Image Classification Using Content Based Image Retrieval books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Image Classification Using Content Based Image Retrieval book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Image Classification Using Content Based Image Retrieval books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing.

- Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
 7. What are Image Classification Using Content Based Image Retrieval audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
 8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
 9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
 10. Can I read Image Classification Using Content Based Image Retrieval books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.

ca te d azur les 45 plus belles randonna c es pa pdf pdf - Nov 05 2022

web jun 25 2023 the costs its virtually what you habit currently this ca te d azur les 45 plus belles randonna c es pa pdf as one of the most working sellers here will no

earthquake response analysis of nuclear facilities subjected to - Feb 09 2023

web jan 1 2023 when applied to nuclear facilities earthquake ground motions are usually assumed to be composed of vertically propagating plane shear and compressional waves that is the ground motions are coherent in the horizontal direction in general the assumption of coherent motion results in conservative structural responses

earthquake resistant design of equipment and piping - Mar 30 2022

web dec 13 2016 a joint project aimed at improving the reliability of nuclear power facilities was started in 1975 by the japanese ministry of international trade and industry now the ministry of economy trade and industry and the nuclear power engineering test center an engineering laboratory with a large shaking table was built in tadotsu kagawa

earthquake engineering technical report osti gov - Dec 27 2021

web n22520 environmental earth sciences site surveys surveys for nuclear facilities environment reactors safety seismology citation formats mla apa chicago bibtex hake g earthquake this report presents the results of part of a two task study on the engineering characterization of earthquake ground motion for

earthquake engineering for nuclear facilities overdrive - Jun 01 2022

web dec 12 2016 this book is a comprehensive compilation of earthquake and tsunami related technologies and knowledge for the design and construction of nuclear facilities as such it covers a wide range of fields including civil engineering architecture geo

earthquake engineering for nuclear facilities researchgate - Jun 13 2023

web jan 1 2016 earthquake engineering for nuclear facilities authors m hamada m kuno abstract this book is a comprehensive compilation of earthquake and tsunami related technologies and knowledge for the

earthquake response analysis of nuclear facilities subjected to - Oct 05 2022

web jan 1 2023 when applied to nuclear facilities earthquake ground motions are usually assumed to be composed of vertically propagating plane shear and compressional waves that is the ground motions are coherent in the horizontal direction in general the assumption of coherent motion results in conservative structural responses

amazon earthquake engineering for nuclear facilities □□□□ - Feb 26 2022

web dec 21 2016 it is crucial both for students of nuclear energy courses and for young engineers in nuclear power generation industries to understand the basics and principles of earthquake and tsunami resistant design of nuclear facilities

earthquake engineering for nuclear reactor facilities - Jan 28 2022

web earthquake engineering for nuclear reactor facilities full record related research authors blume j a sharpe r l kost g publication date sat jan 01 00 00 00 est 1972 research org blume john a and associates engineers san francisco calif osti identifier 4667914 report number s jab 101 nsa number

engineering of nuclear power facilities for earthquake loads - Apr 30 2022

web jun 1 1978 the state of knowledge to engineer nuclear power facilities for earthquake loads is reviewed as it was collectively presented at the fourth smirt conference all aspects of the design process is critically examined starting with the definition of

ayrintilar earthquake engineering for nuclear facilities btÜ - Jul 14 2023

web introduction to earthquake resistant design of nuclear power plants assessment of standard seismic motion stability assessment of foundation ground and surrounding slope earthquake resistant design of building and structure earthquake resistant design of equipment and piping earthquake resistant design of important civil

earthquake instrumentation for nuclear facilities sciencedirect - Aug 03 2022

web jul 1 1974 regulatory and industry guidelines have been developed in the us for earthquake instrumentation so that factual site and structural response records will be made during earthquakes these guides have resulted in the development of specialized sensor recorder and display units which can meet the functional and environmental

earthquake engineering for nuclear facilities max planck society - Mar 10 2023

web earthquake engineering for nuclear facilities this book is a comprehensive compilation of earthquake and tsunami related technologies and knowledge for the design and construction of nuclear facilities as such it covers a wide range of fields including civil engineering architecture geotechnical engineering mechanical engineering and

[earthquake resistant design of building and structure](#) - Jul 02 2022

web dec 13 2016 when the nuclear power plant experiences large earthquakes the earthquake observation records are analyzed to find the damage and to confirm the integrity of buildings and facilities figure 4 22 shows the flow of the reactor building integrity assessment based on earthquake observation records

earthquake engineering for nuclear facilities ghent university - Apr 11 2023

web it is crucial both for students of nuclear energy courses and for young engineers in nuclear power generation industries to understand the basics and principles of earthquake and tsunami resistant design of nuclear facilities

nuclear power plants and earthquakes - Jan 08 2023

web nuclear facilities are designed so that earthquakes and other external events will not jeopardise the safety of the plant in france for instance nuclear plants are designed to withstand an earthquake twice as strong as the 1000 year event calculated for each site

[earthquake instrumentation for nuclear facilities sciencedirect](#) - Nov 06 2022

web jul 1 1974 seismic isolation can be an effective strategy to protect critical facilities including nuclear power plants npps from the damaging effects of horizontal earthquake ground shaking

nuclear energy agency nea experimental facilities for earthquake - Sep 04 2022

web sep 30 2021 nea 2004 experimental facilities for earthquake engineering simulation worldwide are large testing facilities for nuclear power plants design and verification at risk oecd publishing paris

[earthquake engineering for nuclear facilities](#) - Dec 07 2022

web this book is a comprehensive compilation of earthquake and tsunami related technologies and knowledge for the design and construction of nuclear

[earthquake engineering for nuclear facilities springerlink](#) - Aug 15 2023

web michiya kuno serves as an excellent reference for young engineers and students to understand all aspects of earthquake and tsunami resistant design of nuclear facilities provides abundant information about new technologies for the design and construction of nuclear facilities

earthquake engineering for nuclear facilities - May 12 2023

web abstract the aim of the earthquake resistant design of nuclear power plants is to retain three crucial functions even in the event of a major earthquake and tsunami to shut down the reactor shut down to cool down the reactor under a specified
